ORDER 680

The Clerk of Court, through Mr. Joseph Burgess, is directed to strike from the record of this case the following filings:

1. United States' Written Direct Examination of Arthur J. Stevens Submitted Pursuant to Order #471 (filed September 20, 2004).

2. United States' Written Direct Examination of Robert E. Northrip Submitted Pursuant to Order #471 (filed September 20, 2004).

These filings should be deleted, and only the docket entries related to them should remain.

The basis for this Order is the following. In full conformity with Order #471, the United States properly filed the above-referenced proposed Examinations. These filings occurred before the witnesses reviewed the proposed Examinations. Thereafter, the procedures for submitting proposed testimony of adverse witnesses

changed, in recognition of certain inadequacies contained in the procedures originally set in Order #471. In recognition of the change in procedure, the above-referenced proposed Examinations should be struck from the record. The testimony of Arthur J. Stevens and Robert E. Northrip consists only of the written direct examination as corrected by each witness, as well as the live direct, cross, and re-direct examination that occurred in open court.

October 7, 2004

Gladys Kessler
United States District Judge

CERTIFICATE OF SERVICE

I hereby certify that the attached proposed Order was hand delivered in open court during trial to the parties in attendance on October 7, 2004.
