Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets.

Who ever controls the food supply controls the world. Monsanto and companies like it show complete disregard for nature, humanity, and the earth. Do we really want them to continue to own 95% of US grain? If things continue, small farmers will be wiped out. Then, Monsanto and large corporate farms will control 100% of the US, and maybe even the WORLDS, food supply. We will all be at their mercy. You & I will have the eat what they sell us, even if it makes us very ill & or slowly kills us and our families. (GMO foods are DANGEROUS) And they can charge what ever they want. You and I will have to pay, because they will own it all!! (Revelation 6:6 ?A quart of wheat for a day's wages...?)

I want small farms and organic farms protected. I want GMO food baned, it will be the death of us all, slowly and insidiously. Our livestock, which we all depend on for food, will continue to get sick and die because of it. I raise goats, cows, and chickens. I am concerned that I can not find GMO free grain to feed them. I am even more concerned that I will not be able to find GMO free food for my family. I want all food to be labeled! I want to know WERE it came from, WHAT it is, and HOW they made it. Is it some freaky mutation of God's creation? If so, We the People, DO NOT WANT IT!! NO NO NO!!! At the very least, give us a CHOICE! Make them put labels on GMO food!

Please stop Monsanto and big corporate farming before they destroying us all. And please stop them from polluting and poisoning the earth.

Thank you for giving me the opportunity to comment.

Sincerely,
Merrily Behrens

Self employed small livestock farmer.
