Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets. When one company like Monsanto can use legal loop holes to put small honest farmers out of business simple because they want to use seed that is not genetically modified, but be told they are because the pollen drifts from one farm to another.

Please end this monoploistic practice and stop the practice of allowing these same executives from serving in government positions.

Thank you for giving me the opportunity to comment.

Sincerely,

Todd Bartz
