Subject: Corporate food

I am very upset first about the cost of food, it keeps going up, up and up. The quality of food keeps going down, down and down. Now why is that? It seems that my country, our country, has become one large corporately owned and controlled bureaucracy. Why are small farmers being forced out of business, why are our foods filled with unpronounceable ingredients, are loaded with HFCS, sugars and salts, etc. This is totally unacceptable and must stop. Corporate lobbyists need to get out of our government, they are literally bribing their way to owning our governing personnel.

I demand that this kind of behavior come to a screeching halt, and a true democracy be reestablished in this country! Shame on those who becoming disgustingly wealthy at the cost of the people in this country, and shame on those who are either abetting this behavior or encouraging it, and that does include this government.

Respectfully,
K. Cail
