4/6/20

Mr. Jeffrey Lucini
Clerk to Judge Pappert
United States Courthouse
[redacted]
Phila, PA 19106

USA v. Michael Grasso
Case No 17-436

Mr. Lucini:

I hope this finds you, your family and Judge Pappert ALL in Good health amid the Covid-19 virus epidemic. Recently, Warden Bradley convened a meeting concerning the Covid-19 virus, and instructed inmates to initiate administrative procedures to allow inmates to file requests for modification to Home Confinement.

As we know, the law provides for this, under 18 U.S.C. 3582(c)(1)(A). Moreover, this is further supported by the CARES Act of 2020. Mr. Lucini, I am 61 years old, and classified as a Minimum/Low Risk inmate, and am currently invoking my administrative remedy - for release to Home Confinement.

The CARES Act provides for Extending Home Confinement, especially for elderly low and minimum risk prisoners. There are many such inmates who fit this criteria all across the country - and are currently being released as a result.

→

I would like to respectfully ask Judge Pappert to grant a request for Home Confinement under these most potentially weird circumstances we all face currently.

What's going on here is unprecedented, and unlike any other natural disaster our society has ever encountered in our lifetimes. I also fear for my 85 year old mother - and I am the only surviving sibling.

There is a lot of desperation, anxiety and paranoia concerning this - and yes - we are all part of it. I realize Judge Pappert could issue an order via "Sua Sponte" - and I would respectfully ask he can do so.

The administrative remedy has been complied with - and I pray Judge Pappert will grant my request for Home Confinement.

Very Respectfully,

Michael Grasso
