RE: United States v. Apple, Inc. et al., No. 12-CV-2826(DLC) (S.D.N.Y.) – Comments on Proposed Final Judgment as to Defendants Hachette, HarperCollins, and Simon & Schuster

This case does nothing but put Amazon in an even better position to take over the publishing industry, eliminating all competition. Also, the government has no business contracting with Amazon for Kindles while this case is ongoing. It gives the appearance that persons in the government have taken bribes from Amazon.
