Subject: Books, opportunities, and literacy....these are american priorities....

We need a competitive book market, one with many outlets and many possible ways to obtain books of all kinds, paper or E-format. Our schools are being gutted, staffs reduced, home-town merchants struggle to compete with corporate monster-chain. Main street businesses allow communities to fund their own local tax-paid needs. Please don't help Amazon use e-books to target traditional brick-and-mortar bookstores.
