**Subject:** eBook settlement

Dear Mr. Read,

I'm the author of nine published novels which are sold both by [Amazon.com](http://Amazon.com) and brick and mortar bookstores. Both need to survive in the future to insure a healthy, competitive book market. The government should not be helping Amazon use e-books to target traditional brick-and-mortar bookstores. It's frightening to think of a publishing industry monopolized by Amazon.

Sincerely,  
Robin Maxwell
