

contains 128 questions, of which 28 relate to HIV/AIDS and the adult questionnaire contains 122 items, of which 47 relate to HIV/AIDS. Two new questions have been added to both the youth and adult questionnaires to address SAMHSA's need to collect information on binge drinking behavior, not covered under any prior OMB package. These questions are:

1. Females only: During the past 30 days, on how many days did you have 4 or more drinks on the same occasion?

2. Males only: During the past 30 days, on how many days did you have 5 or more drinks on the same occasion?

Procedures are employed to safeguard the privacy and confidentiality of participants. The cross-site evaluation results will have significant implications for the substance abuse and HIV/AIDS prevention fields, the allocation of grant funds, and other evaluation activities conducted by multiple Federal, State, and local government agencies. They will be used

to develop Federal policy in support of SAMHSA/CSAP program initiatives, inform the public of lessons learned and findings, improve existing programs, and promote replication and dissemination of effective prevention strategies.
