Exhibit 300: Capital Asset Plan and Business Case Summary Part I: Summary Information And Justification (All Capital Assets)

## Section A: Overview (All Capital Assets)

- 1. Date of Submission: February 8, 2012
- 2. Agency: Department of Justice
- 3. Bureau: Bureau of Prisons (BOP)
- 4. Name of this Capital Asset: Administrative USP El Reno (Western), OK
- 5. Justification for Investment

The BOP has conducted preliminary planning for several Federal correctional facilities; however, currently no funding is available to continue these projects beyond the planning stage. While no decisions have been made, the completion timeline and cost estimates are contingent on BY+1 funding availability. The BOP does not currently have available funding to move forward with these projects, nor is funding requested in the FY2013 President's Budget.

U.S. Penitentiary (USP) El Reno (Western) is planned as a 1,600 bed Administrative United States Penitentiary with a 256 bed work camp (minimum security). The project will be awarded as a design/build project using a negotiated procurement which allows contractors input on all aspects of the project. USP El Reno received partial site and planning funds in FY 2001. The FY 2013 Request proposes a rescission to reduce this project by \$127,000, leaving \$444,000 in available funding. Completion is planned for 2018, contingent on receiving full funding in FY 2014.

In addition to housing general population high security inmates, Administrative USP El Reno will also be used by the BOP to house a number of supermax inmates and other inmates who have proven to be difficult to manage and inmates who are designated for Special Management Units. Further, the number of supermax beds available in BOP has not increased since the Administrative Maximum (ADX) in Florence, CO was activated in 1994, when the total inmate population was approximately 95,000.

This investment would provide a Federal correctional facility which directly supports the BOP's mission to protect society by confining offenders in the controlled environments of prisons and community-based facilities that are safe, humane, cost-efficient, and appropriately secure, and that provide work and other self-improvement opportunities to assist offenders in becoming law-abiding citizens. It would support the Department of Justice Strategic Goal 3: Ensure and Support the Fair, Impartial, Efficient, and Transparent Administration of Justice at the Federal, State, Local, Tribal and International Levels.

9. Alternatives Analysis

b.

An Alternatives Analysis must evaluate the costs and the benefits of at least three alternatives and the status quo. The details of the analysis must be available to OMB upon request.

a. Was an Alternatives Analysis conducted?

- .i. What is the date of the analysis?
- ii. How many alternatives were evaluated?
- iii. Did the analysis evaluate the costs and the benefits of each alternative?

iv. Briefly summarize the rationale for selected alternative.

Constructing a new facility was the alternative determined to provide the greatest benefits to taxpayers and ultimately be more cost effective than the other alternatives.

- c. If an Alternatives Analysis was not conducted, provide a brief explanation. N/A
- 10. Risk Management

Risk must be actively managed throughout the lifecycle of the investment. The Risk Management Plan must be available to OMB upon request.
