Rx For Prevention

Preventing & Responding to Prescription Drug Abuse on Campus

Drive-in Conference

Because prescription medications are produced legally and distributed through medical providers, students often perceive them as safer than illicit drugs and typically assign little to no risk to the misuse and abuse of prescription medications. This drive-in summit will examine the emerging trend of non-medical prescription drug use on campus through the lenses of prevention, intervention, and enforcement.

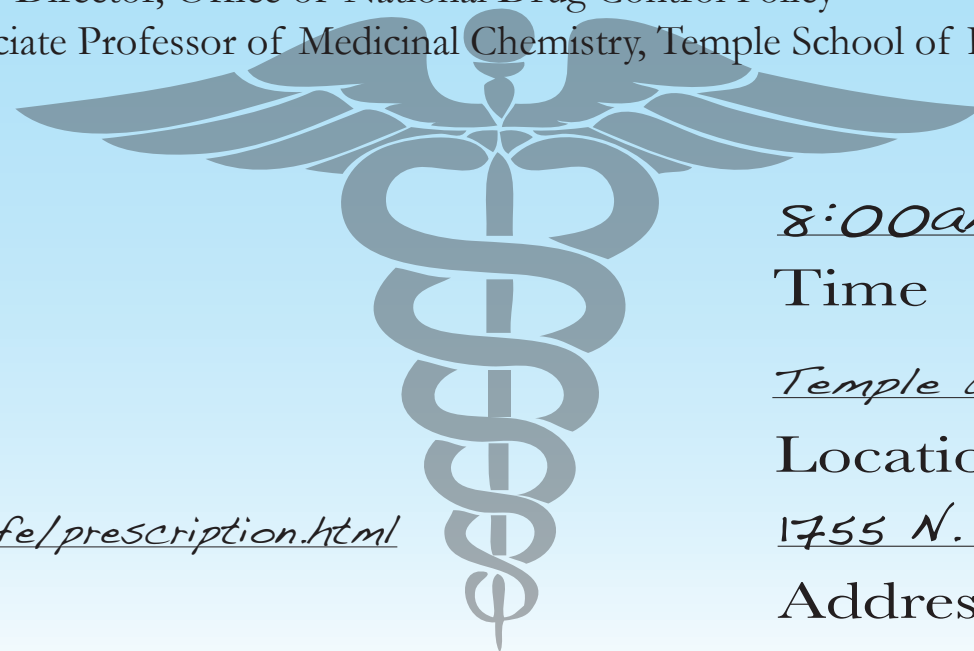

Featured speakers include:

Dr. Amelia Arria, Associate Professor, Department of Behavioral and Community Health and Director, Center on Young Adult Health and Development, University of Maryland School of Public Health

Gary Tennis, Esq., Secretary, Department of Drug and Alcohol Programs

Michael Botticelli, Deputy Director, Office of National Drug Control Policy

Dr. Wayne Childers, Associate Professor of Medicinal Chemistry, Temple School of Pharmacy

June 11, 2014

Date

May 15, 2014
