

ATTACHMENT A

I, Bradley Benwell, am a Special Agent with the Cybercrimes Investigation Group of the Department of Homeland Security, Immigration and Customs Enforcement, Homeland Security Investigations. I have knowledge about the facts set forth below from my involvement in the investigation, review of reports, and discussions with other law enforcement personnel. Where statements of others are related herein, they are related in substance and part. Because this Complaint is being submitted for a limited purpose, I have not set forth each and every fact that I know concerning this investigation. Where I assert that an event took place on a particular date, I am asserting that it took place on or about the date alleged.

1. On or about May 25, 2011, federal law enforcement officers executed a search warrant at the residence of defendant PAUL KROSNICK (“KROSNICK”). During the search, law enforcement officers seized and forensically previewed a computer (the “Computer”). The forensic preview revealed multiple images of what appear to be child pornography as defined by Title 18, United States Code, Section 2256(8)(A). Three of the images recovered are described as follows:

IMAGE	DESCRIPTION
Image #1	This image depicts a prepubescent male engaged in sexual intercourse with an adult male. It is seen from a frontal point of view. The prepubescent male is visible from his thighs to mid chest and is naked. The prepubescent male is facing the camera and holding the erect penis of the adult male while the tip of the penis is penetrating the anus of the prepubescent male.
Image #2	This image depicts a prepubescent male engaged in sexual contact with a prepubescent female. Only the genital areas and rear thighs of the participants are visible. The prepubescent female is lying on her stomach and the prepubescent male is lying on top of the female. The penis of the prepubescent male is touching the anus of the prepubescent female.
Image #3	This image depicts a prepubescent female performing oral sex on an adult male. It is seen from an overhead point of view and the prepubescent female is visible from her head to mid chest. Only the left hand, mid-forearm, stomach, and penis are visible of the adult male. The adult male is using his left thumb to pull on the right side of the prepubescent female’s mouth. The tip of the adult male’s erect penis is touching the mouth of the prepubescent female.

2. During the execution of the search warrant, on or about May 25, 2011, defendant KROSNICK admitted, in substance and in part, that he is the only person that uses the Computer and that he works as an art teacher at a children's school in Cliffside Park, New Jersey.

3. Based upon my training and experience, and to the best of my knowledge and belief, the images described in paragraph 1 above were downloaded from the Internet, considering, among other things, their location and method of storage on defendant KROSNICK's computer.
