[1] Total generated gross receipts are disbursed into two categories: distributions, and fees and costs. Due to data entry and rounding errors, these disbursements do not equal to the total receipts.

[2] Percent of the total receipts paid to a subcategory

[3] Count represents the number of cases that funds disbursed to the corresponding category

[4] Percent of cases that had funds disbursed to the corresponding subcategory

[5] Funds disbursed can be as low $.01 for some cases; rounding these figures causes the minimum to be zero.
