General Information

The Office of Oversight (OO) collects information on the use of telephone language interpreters at 341 meetings. Each interpreting services vendor submits to OO a monthly list of every interpreting session along with their invoices. A session may include more than one case, though the number of cases in a session is not recorded. This list includes the date, length, location, and language of the session.

Variable List

Variable Name	Originating Database Field Name
Var1	OFFICE
Var2	LANGUAGE
Var3	DURATION
Var4	MONTH
Var5	YEAR

Variable Definitions

Variable Name: Var1

Variable Label: Office

Variable Description: Location of 341 meeting of creditors as cited by trustee in call to vendor; grouped by USTP office.

Variable Name: Var2

Variable Label: Language

Variable Description: Language used during the interpreting session.

Variable Name: Var3

Variable Label: Duration

Variable Description: Length (in minutes) of the interpreting session. One interpreting session includes an uninterrupted call with interpreting services provided in one language. This session may involve more than one case, though the number of cases per session is not tracked. Some vendors provide both the minutes and seconds of the call, in which case the duration is rounded up to the next minute.

Variable Name: Var4

Variable Label: Month

Variable Description: Month of interpreting session in integer form (1=Jan, ..., 12=Dec).

Variable Name: Var5

Variable Label: Year

Variable Description: Year of interpreting session.
