JUSTICE DEPARTMENT REQUIRES FLEET FINANCIAL AND BANKBOSTON TO DIVEST 306 BRANCHES IN FOUR NEW ENGLAND STATES

\$13.2 Billion Is Largest Bank Divestiture In History

WASHINGTON, D.C. -- In the largest divestiture in bank merger history, the Department of Justice today announced that Fleet Financial Group Inc., and BankBoston Corporation have agreed to sell \$13.2 billion in deposits in 306 branch offices in Massachusetts, New Hampshire, Rhode Island, and Connecticut in order to resolve antitrust concerns about the companies' pending merger.

Under a proposal by Fleet, which was approved by the Department after its competitive review, the bulk of the divested assets will be sold to a primary buyer, creating a regional bank that will restore competition that would otherwise have been lost by the merger. The sale will establish the primary buyer as the leading small-business lender in Boston and other New England towns, and as a major middle market lender in New England. In addition to branches and deposits, the assets to be divested include the majority of middle market and small business loans in these markets, as well as the opportunity to buy associated back-office operations and to hire certain employees, including small business and middle market relationship managers.

"These historic divestitures will give the primary buyer a platform to compete for all customers in New England--middle market businesses, small businesses, and other consumers--and provide these customers with the benefits of strong local and regional competition," said Joel

I. Klein, Assistant Attorney General in charge of the Department's Antitrust Division . "These divestitures should ensure that customers continue to get the benefits of competition—competitive loan rates and the best banking services."

Today's landmark divestiture exceeds the previous record of an \$8.5 billion divestiture in the Bank of America/Security Pacific merger in 1992.

Fleet will divest 204 branches with approximately \$8.6 billion in deposits in Massachusetts, 13 branches with approximately \$543.5 million in deposits in New Hampshire, 50 branches with approximately \$2.3 billion in deposits in Rhode Island, and 39 branches with approximately \$1.8 billion in deposits in Connecticut. The bulk of the divestitures will go to a primary buyer, while 28 branches and about \$810 million in deposits will be sold to Massachusetts community banks.

In addition, Fleet has agreed not to preclude other financial institutions from leasing or purchasing any bank branches that it may close due to consolidation resulting from this merger.

The proposed merger of Fleet and BankBoston is subject to the approval of the Board of Governors of the Federal Reserve System. The Federal Reserve Board will make the final determination on the merger and will also decide whether it will approve the proposed buyers. The Department said that it will advise the Federal Reserve Board that, subject to divestiture of the branch offices and associated loans and deposits, the Antitrust Division will not challenge the merger.

Fleet Financial Group Inc. is headquartered in Boston, and is the 9th largest bank holding company in the United States with \$69.7 billion in deposits and \$104.4 billion in assets. Its 1,156 banking offices are located throughout Massachusetts, Connecticut, Rhode Island, New

York, New Jersey, Maine, New Hampshire, Vermont, Pennsylvania, Delaware, Maryland, and Florida.

BankBoston Corporation is also headquartered in Boston, and is the 15th largest bank holding company in the United States with 473 offices in Massachusetts, New Hampshire, Connecticut, and Rhode Island. BankBoston, the oldest commercial bank in the country, has \$48.5 billion in deposits and \$73.5 billion in assets.
