Federal Grants Environment – Past, Present and Future

* Before Grants.gov, there was no single point to obtain information about Federal grants
  – Complex, burdensome, and costly processes
  – 50+ places to search for Federal grant opportunities
  – 100+ application processes and forms
  – 80% paper-based processes
* After Grants.gov, processes and forms were standardized
  – Single site to search for all Federal grant opportunities
  – Standard data set and forms for discretionary grant applications
  – Electronic application submissions

“Find Grant Opportunities” Overview

* Provides the ability to search for Federal government-wide grant opportunities
  – In November 2003, the Office of Management and Budget mandated that all agencies post competitive grant opportunities on Grants.gov
  – All 26 Federal grant-making agencies posting opportunities at Grants.gov
* Over 1800 active grant opportunities posted
* Over 2.5 million “hits” weekly
* Over 1,000,000 email notifications of new grant opportunities sent weekly
“Apply for Grants” Overview

- Steady ramp up since October 2003 implementation
  - Over 7,000 application packages posted on Grants.gov to date
  - Over 100,000 applications received by Grants.gov to date
  - FY 2007 goal set by OMB: To have all 26 grant-making agencies post 100% of their discretionary/competitive grant application packages on Grants.gov

Registration for Organizations
Three Step Process

• Register the Organization: CCR
• Register the Organization’s Submitters
  – Authorized Organization Representatives (AORs)
• Organization Authorizes those Submitters (AORs)

Preparing to Apply via Grants.gov: Step 1 of 3

• Organization registers with the Central Contractor Registry (CCR), the Federal database for conducting business with the U.S. Government
  – DUNS Number is required for registration
  – Two important fields within the CCR:
    • E-Business Point of Contact (E-Biz POC)
      – Will authorize organizational representatives at Grants.gov
    • M-PIN
      – E-Business Point of Contact will use the M-PIN in the authorization process

• Organizations can check to see if they are registered and identify their E-Business POC at the CCR website
Preparing to Apply via Grants.gov:
Step 2 of 3

• Authorized Organization Representative (AOR) gets Registered
  — Obtain a Credential Username and Password
    • The representative will go to the Grants.gov Credential Provider to register
    • Will receive a username and will create their own password
  — Register the Credential Username and Password at Grants.gov
    • The representative will return to Grants.gov and register the username and password by setting up their profile
    • After this step, an email will be sent to the organization's E-Business POC, informing the POC of the registration

Registering to Apply via Grants.gov:
Step 3 of 3

• Organization’s E-Business Point of Contact authorizes the organization representative
  — E-Business POC will receive an email that an organization representative is attempting to register at Grants.gov
  — E-Business POC will log into Grants.gov and authorize the organization representative
    • Log-in consists of the organization’s M-PIN and DUNS Number
    • After the authorization, the organization representative will now be an Authorized Organization Representative (AOR)
    • Only after the authorization has occurred will the organization representative be able to submit
  — An organization can have more than one AOR

Description

The Weed and Seed strategy aims to prevent, control, and reduce violent crime, drug abuse, and gang activities. The Weed and Seed initiative is a community-based, crime prevention program whose goal is to decrease crime and improve neighborhood safety by fostering conditions that make it difficult to commit crime and that make it easier to detect and prevent criminal activity. The initiative is designed to reduce the number of violent crime problems and corresponding social problems—violence, drug abuse, and gang activities—through the establishment of partnerships among federal, state, and local agencies, organizations, and community-based groups. The partnership approach enables agencies to expand their resources and develop new partnerships to address social problems that without proper intervention often lead to violent crime, drug abuse, and gang activity.
