

ATTACHMENT A

I, R. Derek Rieck, am a Special Agent (SA) with the Federal Bureau of Investigation (FBI). I have knowledge about the facts set forth below from my involvement in the investigation, review of reports, and discussions with other law enforcement personnel. Where statements of others are related herein, they are related in substance and part. Since this Complaint is being submitted for a limited purpose, I have not set forth each and every fact that I know concerning this investigation. Where I assert that an event took place on a particular date, I am asserting that it took place on or about the date alleged:

1. Prior to May 3, 2011, a federal investigation revealed that someone located at Defendant BRIAN STERN's ("STERN") residence had utilized a "Peer to Peer" ("P2P") file sharing network to receive and distribute videos and images depicting child pornography as defined in Title 18, United States Code, Section 2256(8)(A). STERN is a seventh-grade teacher and swim coach at one of the largest co-educational Pre-K -12 independent day schools in New Jersey.
2. In particular, during the investigation, on or about March 3, 2011, a law enforcement agent working in an undercover capacity downloaded files from someone located at Stern's residence, with descriptions as follows:

<b>FILE</b>	<b>DESCRIPTION</b>
File #1	This video, approximately 9 minutes and 6 seconds in length, appears to depict an approximately 6 year old Caucasian male standing in front of a tan wall wearing a white t-shirt, shorts and underwear. Within the first 15 seconds of the video the boy removes his shirt, shorts, and underwear. The boy then begins to manipulate his penis and his anus with his own hands. Approximately 6 minutes and 14 seconds into the video a naked adult Caucasian male enters the picture. The boy masturbates the naked adult male's erect penis with his left hand while the naked adult male rubs the boy's buttocks with his left hand. The boy then climbs on top of the adult male. The adult male inserts his erect penis between the boy's legs. The boy then performs oral sex on the adult male. The video ends with the adult male rubbing his genitals against the boy's genitals.
File #2	This video, approximately 9 seconds in length, appears to depict a naked, prepubescent, approximately 10 year old, Caucasian male sitting

	<p>on top of a naked adult Caucasian male. The adult male is holding his erect penis with his right hand and proceeds to insert his penis into the boy's anus. For the remainder of the video the adult male continues to forcefully insert his penis into the boy's anus.</p>
<p>File #3</p>	<p>This video, approximately 7 seconds in length, appears to depict a prepubescent, naked, Caucasian male who is bent over an object that is covered by a sheet. His arms have been tied down and there is a rope across his back that is also tying him down. A naked adult Caucasian male is standing behind the boy with his left hand on the child's buttocks and the adult male proceeds to forcefully insert his penis into the boy's anus. The boy appears to be wincing and is gripping the object he is tied down to and is kicking his legs.</p>

3. On or about May 3, 2011, federal law enforcement officers executed a search warrant at STERN's residence, in Montclair, Essex County, New Jersey. Upon executing the search warrant, federal law enforcement agents knocked on the front door of STERN's residence announcing their presence. Following their announcement, federal law enforcement agents entered STERN's residence to find that STERN had attempted to remove and destroy his laptop computer's hard drive. During the execution of the search warrant, STERN spoke with law enforcement agents, and stated in substance and in part that: (a) his laptop computer's hard drive contained hundreds of videos and images of child pornography; and (b) STERN has been viewing, downloading and sharing child pornography via P2P networks for the last 7 or 8 years.

4. STERN further admitted in substance and in part, that he used P2P networks to download and share child pornography, and that he preferred videos and images of fourteen to fifteen year old teenage boys.

5. Law enforcement officers seized STERN's computer as well as several hard drives and other memory devices in order to perform forensic analyses on these items.
