**EIGHTEEN CHARGED WITH DRUG AND FIREARMS TRAFFICKING
IN AREA OF 169th STREET AND GRAND CONCOURSE**

MICHAEL J. GARCIA, the United States Attorney for the Southern District of New York, MARK J. MERSHON, Assistant Director-in-Charge of the New York Office of the Federal Bureau of Investigation, and RAYMOND W. KELLY, the Police Commissioner of the City of New York, announced today the arrests yesterday of twelve individuals for drug and firearms trafficking crimes allegedly committed at a building located at 1269 Grand Concourse, between 168th and 169th Streets in the Bronx, as well as two nearby buildings. Crack cocaine distribution charges were brought against a total of sixteen defendants, six of whom were also charged with trafficking in firearms. Three of the latter group were also charged with possessing firearms after previously being convicted of a felony. Two other defendants were charged in a separate Complaint with firearms trafficking alone.

Yesterday's takedown represents the culmination of a year-long law enforcement operation led by the Federal Bureau of Investigation ("FBI") and the New York City Police Department ("NYPD"). The operation involved numerous purchases of crack cocaine made by confidential sources from drug and gun dealers at 1269 Grand Concourse ("the Building"), as well as numerous purchases of firearms and ammunition from individuals at both the Building and two nearby buildings. According to the Complaints filed today in Manhattan federal court:

The crack cocaine and firearms traffickers at the

Building -- described in Complaint 08 Mag. 1328 (the "1328 Complaint") as the "Grand Concourse Crew" or the "Crew" -- were led for several years by NATHANIEL L. ORTIZ, a/k/a "Nate," the defendant. The brother of NATHANIEL L. ORTIZ -- NATHANAEL R. ORTIZ, a/k/a "Bob," a/k/a "Bebe" -- is also a member of the Grand Concourse Crew and a participant in the Crew's narcotics conspiracy. According to the 1328 Complaint, LUCECITA VARELA, a/k/a "Lucy," believed to be the wife of NATHANIEL L. ORTIZ, has recently assumed a leadership role in the Crew.

The Building is designed in a way that makes it difficult for law enforcement officers to conduct surveillance of individuals within the Building without being detected. For example, no one can enter the Building without first passing through an outer iron gate, a courtyard, and a front door, which is typically locked. In addition, because of the way the windows in the stairwells are situated, a person sitting by the windows on the stairway landings can act as a "look-out" with respect to the front entrance of the Building, and can warn persons inside whenever law enforcement agents appear to approach.

Together, the 1328 Complaint and Complaint 08 May 1327 describe containing the crack distribution charges describes nearly fifty transactions in which confidential sources purchased at least 972 "dime bags" of crack cocaine (each costing \$10), and dozens of firearms. The firearms and ammunition purchased in connection with this case included the following:
