

# NATIONAL COMMISSION ON FORENSIC SCIENCE

**NIST**  
National Institute of  
Standards and Technology  
U.S. Department of Commerce

## Views of the Commission Use of Checklists in Forensic Science

---

**Type of Work Product:** Adjudication of Public Comments on Draft *Use of Checklists in Forensic Science* work product

**Public Comment Summary:** Comments were generally positive about the view expressed that additional research on how checklists can be effectively used by FSSPs and FSMPs would be helpful. Some comments asked questions of the Views document that would be more appropriate to be answered by the research the document recommends.

**Adjudication Process Used by Subcommittee:** The comments were reviewed by the authors of the Views documents, a task force within the Human Factors Subcommittee. They recommended changes to the document that were reviewed by the Human Factors Subcommittee as a whole, and a final document was generated that was forwarded to the full Commission.

### **Itemized Issues and Adjudication Summary:**

Crouse, Cecelia: Clarifications to the document reflecting the comments were resolved at the most recent NCFSS Commission meeting, and additional resources were cited in the document.

Weldon, Thomas: No edits necessary

Ehret, Brent: No edits necessary

Koelling, Peter: No edits necessary

Wolf, Jody: No edits necessary
