

**Petition to Attorney General Eric Holder:
Please stop the AB InBev/ Grupo Modelo merger**

I urge you to stop the merger of AB InBev and Grupo Modelo in order to protect consumers from the potential negative impacts on price and selection that could result from this union.

AB InBev, which is based in Belgium, already controls over 200 beer brands worldwide. By adding Grupo Modelo to its empire, it will continue to further monopolize the U.S. beer market.

Please take action today to stop the expansion of food monopolies, starting with the beer industry.

Sincerely,
