WILLIAM E. BERLIN

Experience

William E. Berlin is a principal and member of Ober|Kaler's Antitrust and Competition, Litigation and Health Law Groups. Based in the firm's Washington, D.C., office, he devotes his practice to antitrust litigation and counseling, representing hospitals, health systems, health insurance plans, physicians, and other health care entities.

Bill's practice focuses primarily on representing clients in private treble-damage litigation, as well as in U.S. Department of Justice Antitrust Division, Federal Trade Commission and state antitrust enforcement agency investigations and actions involving exclusionary conduct by dominant firms, mergers, and contracting provisions or other collaborative activity between hospitals, physicians and health plans. Bill's private and government agency litigation frequently requires managing complex procedural issues, including large-scale electronic document discovery. Bill also serves as an arbitrator or mediator in antitrust and other disputes between health care entities.

Formerly a trial attorney with the Health Care Task Force and later the Litigation 1 Section of the DOJ's Antitrust Division, Bill has extensive experience leading investigations and litigation of both merger and non-merger civil antitrust cases in healthcare and other market sectors, including the Antitrust Division's successful five-year litigation and trial in *U.S. v. Dentsply International, Inc.* He also managed the Joint DOJ/FTC Hearings on Health Care and Competition Law and Policy in 2003 on behalf of the DOJ and moderated several sessions during the hearings.

Bill was selected by *Nightingale's Healthcare News* as one of ten "Outstanding Antitrust Lawyers" for 2008. A frequent guest speaker at health care association conferences and meetings, he has authored a number of papers and articles on topics of interest to medical professionals.

Representative Cases

- Successfully obtained dismissal for a general acute-care hospital in a suit alleging antitrust claims based on revoking the privileges of physician-investors in a specialty hospital, and payor contracting. *LRCC v. Baptist Health*, 591 F.3d 591 (8th Cir. 2009)
- Successfully obtained summary judgment on behalf of a physician-owned specialty hospital in an antitrust suit involving
