DOJ,

If this goes into effect I feel like The government limits my ability to participate in a free market; it takes my property rights without due process or just compensation; it even limits my kind of speech (public performance of my songs) as I must participate in this process or effectively forgo compensation when I perform my songs in the public square. I know that there's always the theoretical possibility of a direct license outside of the consent decrees, but as a practical matter, I can tell you that is very rare because it is rarely offered.

Thank you.
