Philip,

My mailbox must have been full when you responded... can you please resend?

Thanks,

Greg

Philip,

Thanks for your voicemail on rescheduling this meeting. What was the date?
I'll be out of the office the rest of this week. Please copy Steve and Ken.

Thanks again,

Greg   C004070

-------------------------- [Original Message] -------------------------

Since I doubt we'll all have chance to meet beforehand, I'd like to give
everyone who may be attending this meeting a summary of our relationships with
the other primary online service providers, so we all have a comparative basis
going into this discussion. Many of you may already know part or all of this,
and anyone who knows more should contribute that knowledge.

Although I think we should listen carefully to Microsoft's presentation, we
must also realize that we have significant, revenue producing relationships
with the other already established services, and play the discussion with
Microsoft accordingly - i.e. no commitments until we understand how it will
play with us and the market.

America OnLine:
AOL pays Compaq $30.00 per new subscriber plus 10% of connect time revenue
generated by use of online support forum.
Compaq has received over $1M in revenue from this arrangement since it started

in '93

CONFIDENTIAL

Compaq has an online support forum in AOL
AOL has offered to handle online registration for us
AOL has offered to provide marketing messages within the CPQ AOL SW

Prodigy:
Prodigy pays Compaq $10.00 per new subscriber
Proidgy has shown Compaq significant efforts utilizing cable modems to deliver
their services, and is heavily involved in pushing this medium of connection
and new services.
Prodigy has the local servers and relationships with cable providers in place
or on the way to implement broadband services

Compuserve:
Compuserve pays Compaq $10.00 per new subscriber
Compuserve is already worldwide

Thanks!
Greg

Philip Wheeler@Portable@PCMkt Hou Wrote:

Please attend next week's Microsoft "Marvel meeting.

Date: Thursday, July 21
Time: 3-5:00pm
Place: 12633

Marvel is Microsoft's world-wide, On-Line product co-arriving with Chicago.
It is similar to products such as Compuserve, Prodigy, and America on
Line.

Some of its key features and benefits to Compaq include:
    + On-line registration
    + Sales vehicle - Compaq Hardware and Logo/Brand products
    + Compaq Service Forums

Steven will be giving a presentation on Marvel, and is seeking input from
Compaq on the above features.

Please feel free to invite anyone whom you think might be interested.

Regards,
Phil
