IBM Program License Agreement for OS/2 Version 3

BEFORE USING THIS PROGRAM, YOU SHOULD CAREFULLY READ THE FOLLOWING TERMS AND CONDITIONS. USING THE PROGRAM INDIC..TES YOUR ACCEPTANCE OF THESE TERMS AND CONDITIONS.

The Program is licensed not sold. International Business Machines Corporation, or the applicable IBM country organization (IBM), grants you a license for the Program only in the country where you acquired the Program. You obtain no rights other than those granted you under this license.

The term "Program" means the original and all whole or partial copies of it, including modified copies or portions merged into other programs. IBM retains title to the Program. IBM owns, or has licensed from the owner, copyrights in the Program.

You are responsible for the selection of the Program and for the installation of, use of, and results obtained from, the Program.

The section, in the included documentation, entitled "License Information" contains additional information on the Program.

1. License

Under this license, you may:

1) use the Program on only one machine at any one time, unless the License Information specifies otherwise;
2) copy the Program for backup or in order to modify it;
3) modify the Program and/or merge it into another program as an essential utilization of the Program in conjunction with your machine; and
4) transfer the possession of the Program to another party.

If you transfer the Program, you must transfer a copy of this license, the License Information, all other documentation and at least one complete, unaltered copy of the Program to the other party. You must, at the same time, either transfer all your other copies of the Program to the other party or destroy them. Your license is then terminated. The other party agrees to these terms and conditions by its first use of the Program.

You must reproduce the copyright notice(s) on each copy, or partial copy, of the Program.

You may not:

1) use, copy, modify, merge, or transfer copies of the Program except as provided in this license;
2) reverse assemble or reverse compile the Program; or
3) sublicense, rent, lease, or assign the Program.

2. Limited Warranty

Some Programs have limited warranties. The warranty details and limitations are described in their Statement of Limited Warranty. Some Programs are not warranted and IBM will specify that they are provided "AS IS."

All Programs have a three-month limited warranty on their media.

THESE WARRANTIES ARE IN LIEU OF ALL OTHER WARRANTIES (OR CONDITIONS), EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Some jurisdictions do not allow exclusion of implied warranties, so the above exclusion may not apply to you.

IBM Program License Agreement for the BonusPak

BEFORE USING THESE PROGRAMS, (hereinafter collectively referred to as the Program),
YOU SHOULD CAREFULLY READ THE FOLLOWING TERMS AND CONDITIONS.
USING THE PROGRAM INDICATES YOUR ACCEPTANCE OF THESE TERMS AND
CONDITIONS.

The Program is licensed not sold. International Business Machines Corporation, or the applicable IBM
country organization, (IBM) grants you a license for the Program only in the country where you acquired
the Program. You obtain no rights other than those granted you under this license. The term
"Program" means the original and all whole or partial copies of it, including modified copies or portions
merged into other programs. IBM retains title to the Program. IBM owns, or has licensed from the
owner, copyrights in the Program. You are responsible for the selection of the Program and for the
installation of, use of, and results obtained from, the Program.

1. License

Under this license, you may:

1) use the Program on only one machine at any one time;
2) copy the Program for backup or in order to modify it;
3) modify the Program and/or merge it into another program as an essential utilization of the
   Program in conjunction with your machine; and
4) transfer the possession of the Program to another party.

If you transfer the Program, you must transfer a copy of this license, all other documentation and
at least one complete, unaltered copy of the Program to the other party. You must, at the same time,
either transfer all your other copies of the Program to the other party or ... . our License
is ther terminated. The other party agrees to these terms and conditions by its first use of the
Program

You must reproduce the copyright notice(s) on each copy, or partial copy, of the Program

You may not:

1) use, copy, modify, merge, or transfer copies of the Program except as provided in this license;
2) reverse assemble or reverse compile the Program; or
3) sublicense, rent, lease, or assign the Program.

BonusPak

This guide contains information about the BonusPak product included in this package. BonusPak is a collection of the following applications that run under OS/2* Version 3:

- CompuServe** Information Manager© for OS/2
- IBM Works* and Personal Information Manager*
- FaxWorks** for OS/2
- HyperACCESS Lite** for OS/2
- IBM Internet Connection for OS/2
- Multimédia Viewer*
- Video IN* for OS/2
- IBM Person to Person for OS/2*
- System Information Tool

Installing the BonusPak

You can install the BonusPak from diskettes or from a CD-ROM. Use the BonusPak Installation Utility if you want to install all the applications included in the BonusPak. You can use the BonusPak Installation Utility to install individual applications, as well. If you prefer, you can install individual applications using the installation or setup program associated with the application.

Installing the BonusPak from Diskette

The following procedures assume that you are starting the Installation program from drive A. If you are starting from another diskette drive, substitute the letter of that drive.

To use the BonusPak Installation Utility program:

1. Insert the *BonusPak Installation Utility Diskette* into drive A.
2. Open OS/2 System.
3. Open Command Prompts.
4. Open either OS/2 Full Screen or OS/2 Window.
5. Type A:INSTALL and press Enter.
6. Select products to install using mouse button 1.
7. Select the INSTALL pushbutton.
8. Follow the instructions on your screen.

To install individual applications, you need to know the name of the installation program and the diskette on which the application is located. Use the following table:

Diskette Label	Installation Program
BonusPak Install Utility on the Installation Utility System Information Tool diskette	INSTALL.CMD
CompuServe Information Manager® for OS/2	SETUP.EXE
IBM Works diskette 1	INSTALL.EXE
FaxWorks™ for OS/2	INSTALL.EXE
HyperACCESS™ Lite for OS/2	HAINST.EXE
IBM Internet Connection for OS/2 diskette 1	INSTALL.EXE
IBM Multimedia Viewer	MINSTALL /F:CONTROL.MMV
Video IN for OS/2	MINSTALL /F:CONTROL.VIN
IBM Person to Person for OS/2	INSTALL.EXE
System Information Tool on the Installation Utility System Information Tool diskette	SYSI.CMD

1. Insert the diskette that contains the application you want to install into drive A. Insert diskette 1 for an application that is on multiple diskettes.

2. Open OS/2 System.

3. Open Command Prompts.

4. Open either OS/2 Full Screen or OS/2 Window.

5. Type the command for the installation or setup program. (For example, you would type A:SETUP to install the CompuServe application.)[1] Then press Enter.

6. Follow the instructions on your screen.

---

1 This step applies only to IBM Works, FaxWorks for OS/2, HyperACCESS Lite for OS/2, Person to Person, and System Information Tool.

Installing the BonusPak from CD-ROM

The following procedures assume that your CD-ROM drive is E. If it is not drive E, substitute the correct drive letter.

There are 15 directories on the BonusPak CD-ROM that correspond to the 15 country codes listed below.

BR	Brazil	DK	Denmark
FR	France	GR	Germany
IT	Italy	NL	Netherlands
NO	Norway	PO	Portugal
SP	Spain	SU	Finland
SV	Sweden	CF	Canadian French
UK	United Kingdom	LA	Latin America
US	US English		

To use the BonusPak Installation Utility program:

1. Insert the *BonusPak CD-ROM* into the CD-ROM drive.
2. Open **OS/2 System**.
3. Open **Command Prompts.**
4. Open either **OS/2 Full Screen** or **OS/2 Window.**
5. Type **E:** and press Enter.
6. Change to the directory that contains the installation program in the appropriate language. Type **CD** followed by the two-letter country code. (For example, you would type **CD US** for US English.) Then press Enter.
7. Type **INSTALL** and press Enter.
8. Select the applications you want to install.
9. Select the **INSTALL** pushbutton.
10. Follow the instructions on your screen.

To install individual applications from CD-ROM, you need to know the name of the installation program and the directory on the CD-ROM where it is located. Use the following table, where E: represents the CD-ROM drive letter for the CD-ROM drive on your computer and *cc* represents the country directory you want to use:

Product	Application Directory	Installation Program
CompuServe Information Manager® for OS/2	E:\CIMOS2	SETUP.EXE
IBM Works	E:\cc\IBMWORKS	INSTALL.EXE
FaxWorks™ for OS/2	E:\cc\FAXWORKS	INSTALL.EXE
HyperACCESS™ Lite for OS/2	E:\cc\HYPEROS2	HAINST.EXE E:\cc\HYPEROS2
IBM Internet Connection for OS/2	E:\INTERNET	INSTALL.EXE
IBM Multimedia Viewer	E:\MMVIEWER	MINSTALL /F:CONTROL.MMV
Video IN for OS/2	E:\VIDEOIN	MINSTALL /F:CONTROL.VIN
IPM Person to Person for OS/2	E:\cc\P2P	INSTALL.EXE
System Information Tool	E:\cc\SYSINFO	SYSI.CMD

1. Insert the *BonusPak* CD-ROM into the CD-ROM drive.
2. Open OS/2 System.
3. Open Command Prompts.
4. Open either OS/2 Full Screen or OS/2 Window.
5. Type E: and press Enter.
6. Change to the directory that contains the installation program in the appropriate language. Type CD followed by the two-letter country code. (For example, you would type CD US for US English.) Then press Enter.

7. Change to the directory that contains the application that you wish to install. Type CD followed by the <application directory> shown in the previous table. (For example, you would type CD P2P for IBM Person to Person for OS/2.) Then press Enter.

8. Type the <installation program> for the application that you wish to install. (For example, you would type SYSI to install System Information Tool.) Then press Enter.

9. Follow the instructions on your screen.

Customer Service

Refer to the service and support card included in this package of OS/2 Warp for the customer service phone numbers.

BonusPak Applications

This section briefly describes the applications that are contained in the BonusPak.

CompuServe Information Manager® for OS/2

CompuServe Information Manager® for OS/2, also referred to as CIM for OS/2, is a software product developed by CompuServe to support OS/2 users. By using CIM for OS/2, you'll have access to over 2000 products and services, over 500,000 files, plus the knowledge and experience of over 2 million CompuServe members worldwide. No matter what your interests, you can get more out of CompuServe. CompuServe lets you do many things, from keeping in touch with CompuServe's communication services to following your favorite newspaper columnists.

In CompuServe you'll find extensive support for IBM hardware and software products and hundreds of other products in CompuServe's personal computing forums. These electronic meeting places are home to industry experts, long-time users, and company representatives who are on hand to share advice, swap tips, or just talk about the latest product developments.

If you are already a CompuServe member, simply double-click on the settings folder and insert your name, user id, and phone number in the appropriate places.

If you are not already a CompuServe member, simply double-click on the Member Sign-Up icon and follow the instructions that appear on your screen.

IBM Works and Personal Information Manager

IBM Works and Personal Information Manager (PIM) are a collection of applications and productivity tools that include:

- Word processor
- Spreadsheet
- Database
- Charting program
- Report writer
- Calendar
- Monthly planner
- Appointment book
- Phone book
- Contact list
- To Do list
- Notepad

See the README file in the IBM Works folder for more information.

Both IBM Works and PIM tools take full advantage of OS/2 Warp V3 features including 32-bit code, multithreading, controls, and drag-and-drop interaction between the applications.

FaxWorks™ for OS/2

FaxWorks™ for OS/2 is 32-bit fax software for OS/2. It enables you to send and receive faxes of unlimited length, print faxes to any OS/2 printer, and create and send faxes from your OS/2, DOS, and Windows applications running on OS/2. To run Windows applications under OS/2 Version 3, you must have Windows Version 3.1 or 3.11 or Windows for Workgroups Version 3.1 or 3.11 installed on your system. Features of FaxWorks™ for OS/2 include drag-and-drop printing and viewing, normal and fine fax resolution, portrait and landscape orientation, multiple page lengths, and emulation of the IBM Proprinter* X24 printer for print capture (LPT3) from your DOS and Windows applications. The FaxWorks™ for OS/2 product supports fax modems that follow the Class 1, Class 2, and SendFax standards. The full retail version of Fax
