Mr. Stallings,

I do not understand how Sunnixon Energy and SG Interests can be allowed to retain the leases that they obtained illegally! The slap on the wrist was an insult to the people who will be affected by these leases! How do you justify a two year jail sentence for Tim DeChristopher who sought only to protect our land and speak for the rest of us. Why is Bill Kock walking free for a much larger offense? Who are you protecting? I am a retired teacher who always taught our children that the government, especially the Department of Justice was designed and organized to protect them, not the super rich interests. Was I wrong?
