**FILED**

AUG 24 1982

MODIFICATION OF FINAL JUDGMENT

JAMES E. DAVEY, Clerk

Plaintiff, United States of America, having filed its complaint herein on January 14, 1949; the defendants having appeared and filed their answer to such complaint denying the substantive allegations thereof; the parties, by their attorneys, having severally consented to a Final Judgment which was entered by the Court on January 24, 1956, and the parties having subsequently agreed that modification of such Final Judgment is required by the technological, economic and regulatory changes which have occurred since the entry of such Final Judgment;

Upon joint motion of the parties and after hearing by the Court, it is hereby

ORDERED, ADJUDGED, AND DECREED that the Final Judgment entered on January 24, 1956, is hereby vacated in its entirety and replaced by the following items and provisions:

I

AT&T Reorganization

A. Not later than six months after the effective date of this Modification of Final Judgment, defendant AT&T shall submit to the Department of Justice for its approval, and thereafter implement, a plan of reorganization. Such plan

shall provide for the completion, within 18 months after the effective date of this Modification of Final Judgment, of the following steps:

1. The transfer from AT&T and its affiliates to the BOCs, or to a new entity subsequently to be separated from AT&T and to be owned by the BOCs, of sufficient facilities, personnel, systems, and rights to technical information to permit the BOCs to perform, independently of AT&T, exchange telecommunications and exchange access functions, including the procurement for, and engineering, marketing and management of, those functions, and sufficient to enable the BOCs to meet the equal exchange access requirements of Appendix B;

2. The separation within the BOCs of all facilities, personnel and books of account between those relating to the exchange telecommunications or exchange access functions and those relating to other functions (including the provision of interexchange switching and transmission and the provision of customer premises equipment to the public); provided that there shall be no joint ownership of facilities, but appropriate provision may be made for sharing, through leasing or otherwise, of multifunction facilities so long as the separated portion of each BOC is ensured control over the exchange telecommunications and exchange access functions;

3. The termination of the License Contracts between AT&T and the BOCs and other subsidiaries and the Standard Supply Contract between Western Electric and the BOCs and other subsidiaries; and

4. The transfer of ownership of the separated portions of the BOCs providing local exchange and exchange access services from AT&T by means of a spin-off of stock of the separated BOCs to the shareholders of AT&T, or by other disposition; provided that nothing in this Modification of Final Judgment shall require or prohibit the consolidation of the ownership of the BOCs into any particular number of entities.

B. Notwithstanding separation of ownership, the BOCs may support and share the costs of a centralized organization for the provision of engineering, administrative and other services which can most efficiently be provided on a centralized basis. The BOCs shall provide, through a centralized organization, a single point of contact for coordination of BOCs to meet the requirements of national security and emergency preparedness.

C. Until September 1, 1987, AT&T, Western Electric, and the Bell Telephone Laboratories, shall, upon order of any BOC, provide on a priority basis all research, development, manufacturing, and other support services to enable the BOCs to fulfill the requirements of this Modification of Final Judgment. AT&T and its affiliates shall take no action that interferes with the BOCs' requirements of nondiscrimination established by section II.

D. After the reorganization specified in paragraph I(A)(4), AT&T shall not acquire the stock or assets of any BOC.

## II

### BOC Requirements

A. Subject to Appendix B, each BOC shall provide to all interexchange carriers and information service providers exchange access, information access, and exchange services for such access on an unbundled, tariffed basis, that is equal in type, quality, and price to that provided to AT&T and its affiliates.

B. No BOC shall discriminate between AT&T and its affiliates and their products and services and other persons and their products and services in the:

1. procurement of products and services;
2. establishment and dissemination of technical information and procurement and interconnection standards;

3. interconnection and use of the BOC's telecommunications service and facilities or in the charges for each element of service; and
4. provision of new services and the planning for and implementation of the construction or modification of facilities, used to provide exchange access and information access.

C. Within six months after the reorganization specified in paragraph I(A)(4), each BOC shall submit to the Department of Justice procedures for ensuring compliance with the requirements of paragraph B.

D. After completion of the reorganization specified in section I, no BOC shall, directly or through any affiliated enterprise:

1. provide interexchange telecommunications services or information services;
2. manufacture or provide telecommunications products or customer premises equipment (except for provision of customer premises equipment for emergency services); or
3. provide any other product or service, except exchange telecommunications and exchange access service, that is not a natural monopoly service actually regulated by tariff.

### III

#### Applicability and Effect

The provisions of this Modification of Final Judgment, applicable to each defendant and each BOC, shall be binding upon said defendants and BOCs, their affiliates, successors and assigns, officers, agents, servants, employees, and attorneys, and upon those persons in active concert or participation with each defendant and BOC who receive actual notice of this Modification of Final Judgment by personal service or otherwise. Each defendant and each person bound by the prior

sentence shall cooperate in ensuring that the provisions of this Modification of Final Judgment are carried out. Neither this Modification of Final Judgment nor any of its terms or provisions shall constitute any evidence against, an admission by, or an estoppel against any party or BOC. The effective date of this Modification of Final Judgment shall be the date upon which it is entered.

#### IV

##### Definitions

For the purposes of this Modification of Final Judgment:

A. "Affiliate" means any organization or entity, including defendant Western Electric Company, Incorporated, and Bell Telephone Laboratories, Incorporated, that is under direct or indirect common ownership with or control by AT&T or is owned or controlled by another affiliate. For the purposes of this paragraph, the terms "ownership" and "owned" mean a direct or indirect equity interest (or the equivalent thereof) of more than fifty (50) percent of an entity. "Subsidiary" means any organization or entity in which AT&T has stock ownership, whether or not controlled by AT&T.

B. "AT&T" shall mean defendant American Telephone and Telegraph Company and its affiliates.

C. "Bell Operating Companies" and "BOCs" mean the corporations listed in Appendix A attached to this Modification of Final Judgment and any entity directly or indirectly owned or controlled by a BOC or affiliated through substantial common ownership.

D. "Carrier" means any person deemed a carrier under the Communications Act of 1934 or amendments thereto, or, with respect to intrastate telecommunications, under the laws of any State.

E. "Customer premises equipment" means equipment employed on the premises of a person (other than a carrier) to originate, route, or terminate telecommunications, but does not include equipment used to multiplex, maintain, or terminate access lines.

F. "Exchange access" means the provision of exchange services for the purpose of originating or terminating interexchange telecommunications. Exchange access services include any activity or function performed by a BOC in connection with the origination or termination of interexchange telecommunications, including but not limited to, the provision of network control signalling, answer supervision, automatic calling number identification, carrier access codes, directory services, testing and maintenance of facilities and the provision of information necessary to bill customers. Such services shall be provided by facilities in an exchange area for the transmission, switching, or routing, within the exchange area, of interexchange traffic originating or terminating within the exchange area, and shall include switching traffic within the exchange area above the end office and delivery and receipt of such traffic at a point or points within an exchange area designated by an interexchange carrier for the connection of its facilities with those of the BOC. Such connections, at the option of the interexchange carrier, shall deliver traffic with signal quality and characteristics equal to that provided similar traffic of AT&T, including equal probability of blocking, based on reasonable traffic estimates supplied by each interexchange carrier. Exchange services for exchange access shall not include the performance by any BOC of interexchange traffic routing for any interexchange carrier. In the reorganization specified in section I, trunks used to transmit AT&T's traffic between end offices and class 4 switches shall be exchange access facilities to be owned by the BOCs.

G. "Exchange area," or "exchange" means a geographic area established by a BOC in accordance with the following criteria:

1. any such area shall encompass one or more contiguous local exchange areas serving common social, economic, and other purposes, even where such configuration transcends municipal or other local governmental boundaries;

2. every point served by a BOC within a State shall be included within an exchange area;

3. no such area which includes part or all of one standard metropolitan statistical area (or a consolidated statistical area, in the case of densely populated States) shall include a substantial part of any other standard metropolitan statistical area (or a consolidated statistical area, in the case of densely populated States), unless the Court shall otherwise allow; and

4. except with approval of the Court, no exchange area located in one State shall include any point located within another State.

H. "Information" means knowledge or intelligence represented by any form of writing, signs, signals, pictures, sounds, or other symbols.

I. "Information access" means the provision of specialized exchange telecommunications services by a BOC in an exchange area in connection with the origination, termination, transmission, switching, forwarding or routing of telecommunications traffic to or from the facilities of a provider of information services. Such specialized exchange telecommunications services include, where necessary, the provision of network control signalling, answer supervision, automatic calling number identification, carrier access codes, testing and maintenance of facilities, and the provision of information necessary to bill customers.

J. "Information service" means the offering of a capability for generating, acquiring, storing, transforming, processing, retrieving, utilizing, or making available information which may be conveyed via telecommunications, except that such service does not include any use of any such capability for the management, control, or operation of a telecommunications system or the management of a telecommunications service.

K. "Interexchange telecommunications" means telecommunications between a point or points located in one exchange telecommunications area and a point or points located in one or more other exchange areas or a point outside an exchange area.

L. "Technical information" means intellectual property of all types, including, without limitation, patents, copyrights, and trade secrets, relating to planning documents, designs, specifications, standards, and practices and procedures, including employee training.

N. "Telecommunications equipment" means equipment, other than customer premises equipment, used by a carrier to provide telecommunications services.

O. "Telecommunications" means the transmission, between or among points specified by the user, of information of the user's choosing, without change in the form or content of the information as sent and received, by means of electromagnetic transmission, with or without benefit of any closed transmission medium, including all instrumentalities, facilities, apparatus, and services (including the collection, storage, forwarding, switching, and delivery of such information) essential to such transmission.

P. "Telecommunications service" means the offering for hire of telecommunications facilities, or of telecommunications by means of such facilities.

Q. "Transmission facilities" means equipment (including without limitation wire, cable, microwave, satellite, and fibre-optics) that transmit information by electromagnetic means or which directly support such transmission, but does not include customer premises equipment.

V

Compliance Provisions

The defendants, each BOC, and affiliated entities are ordered and directed to advise their officers and other management personnel with significant responsibility for matters addressed in this Modification of Final Judgment of their obligations hereunder. Each BOC shall undertake the following with respect to each such officer or management employee:

1. The distribution to them of a written directive setting forth their employer's policy regarding compliance with the Sherman Act and with this Modification of Final Judgment, with such directive to include:

(a) an admonition that non-compliance with such policy and this Modification of Final Judgment will result in appropriate disciplinary action determined by their employer and which may include dismissal; and

(b) advice that the BOCs' legal advisors are available at all reasonable times to confer with such persons regarding any compliance questions or problems;

2. The imposition of a requirement that each of them sign and submit to their employer a certificate in substantially the following form:

The undersigned hereby (1) acknowledges receipt of a copy of the 1982 United States v. Western Electric Modification of Final Judgment and a written directive setting forth Company policy regarding compliance with the antitrust laws and with such Modification of Final Judgment, (2) represents that the undersigned has read such Modification of Final Judgment and directive and understands those provisions for which

the undersigned has responsibility, (3) acknowledges that the undersigned has been advised and understands that non-compliance with such policy and Modification of Final Judgment will result in appropriate disciplinary measures determined by the Company and which may include dismissal, and (4) acknowledges that the undersigned has been advised and understands that non-compliance with the Modification of Final Judgment may also result in conviction for contempt of court and imprisonment and/or fine.

VI

Visitorial Provisions

A. For the purpose of determining or securing compliance with this Modification of Final Judgment, and subject to any legally recognized privilege, from time to time:

1. Upon written request of the Attorney General or of the Assistant Attorney General in charge of the Antitrust Division, and on reasonable notice to a defendant or after the reorganization specified in section I, a BOC, made to its principal office, duly authorized representatives of the Department of Justice shall be permitted access during office hours of such defendants or BOCs to depose or interview officers, employees, or agents, and inspect and copy all books, ledgers, accounts, correspondence, memoranda and other records and documents in the possession or under the control of such defendant, BOC, or subsidiary companies, who may have counsel present, relating to any matters contained in this Modification of Final Judgment; and

2. Upon the written request of the Attorney General or of the Assistant Attorney General in charge of the Antitrust Division made to a defendant's principal office or, after the reorganization specified in section I, a BOC, such defendant, or BOC, shall submit such written reports, under oath if requested, with respect to any of the matters contained in this Modification of Final Judgment as may be requested.

B. No information or documents obtained by the means provided in this section shall be divulged by any representative of the Department of Justice to any person other than a duly authorized representative of the Executive Branch of the United States or the Federal Communications Commission, except in the course of legal proceedings to which the United States is a party, or for the purpose of securing compliance with this Final Judgment, or as otherwise required by law.

C. If at the time information or documents are furnished by a defendant to plaintiff, such defendant or BOC represents and identifies in writing the material in any such information or documents to which a claim of protection may be asserted under Rule 26(c)(7) of the Federal Rules of Civil Procedure, and said defendant or BOC marks each pertinent page of such material, "Subject to claim of protection under Rule 26(c)(7) of the Federal Rules of Civil Procedure," then 10 days' notice shall be given by plaintiff to such defendant or BOC prior to divulging such material in any legal proceeding (other than a grand jury proceeding) to which that defendant or BOC is not a party.

## VII

### Retention of Jurisdiction

Jurisdiction is retained by this Court for the purpose of enabling any of the parties to this Modification of Final Judgment, or, after the reorganization specified in section I, a BOC to apply to this Court at any time for such further orders or directions as may be necessary or appropriate for the construction or carrying out of this Modification of Final Judgment, for the modification of any of the provisions hereof, for the enforcement of compliance herewith, and for the punishment of any violation hereof.

## VIII

### Modifications

A. Notwithstanding the provisions of section II(D)(2), the separated BOCs shall be permitted to provide, but not manufacture, customer premises equipment.

B. Notwithstanding the provisions of section II(D)(3), the separated BOCs shall be permitted to produce, publish, and distribute printed directories which contain advertisements and which list general product and business categories, the service or product providers under these categories, and their names, telephone numbers, and addresses.

Notwithstanding the provisions of sections I(A)(1), I(A)(2), I(A)(4), all facilities, personnel, systems, and rights to technical information owned by AT&T, its affiliates, or the BOCs which are necessary for the production, publication, and distribution of printed advertising directories shall be transferred to the separated BOCs.

C. The restrictions imposed upon the separated BOCs by virtue of section II(D) shall be removed upon a showing by the petitioning BOC that there is no substantial possibility that it could use its monopoly power to impede competition in the market it seeks to enter.

D. AT&T shall not engage in electronic publishing over its own transmission facilities. "Electronic publishing" means the provision of any information which AT&T or its affiliates has, or has caused to be, originated, authored, compiled, collected, or edited, or in which it has a direct or indirect financial or proprietary interest, and which is disseminated to an unaffiliated person through some electronic means. :

Nothing in this provision precludes AT&T from offering electronic directory services that list general product and business categories, the service or product providers under these categories, and their names, telephone numbers, and addresses; or from providing the time, weather, and such other

audio services as are being offered as of the date of the entry of the decree to the geographic areas of the country receiving those services as of that date.

Upon application of AT&T, this restriction shall be removed after seven years from the date of entry of the decree, unless the Court finds that competitive conditions clearly require its extension.

E. If a separated BOC provides billing services to AT&T pursuant to Appendix B(C)(2), it shall include upon the portion of the bill devoted to interexchange services the following legend:

This portion of your bill is provided as a service to AT&T. There is no connection between this company and AT&T. You may choose another company for your long distance telephone calls while still receiving your local telephone service from this company.

F. Notwithstanding the provisions of Appendix B(C)(3), whenever, as permitted by the decree, a separated BOC fails to offer exchange access to an interexchange carrier that is equal in type and quality to that provided for the interexchange traffic of AT&T, the tariffs filed for such less-than-equal access shall reflect the lesser cost, if any, of such access as compared to the exchange access provided AT&T.

G. Facilities and other assets which serve both AT&T and one or more BOCs shall be transferred to the separated BOCs if the use made by such BOC or BOCs predominates over that of AT&T. Upon application by a party or a BOC, the Court may grant an exception to this requirement.

H. At the time of the transfer of ownership provided for in section I(A)(4), the separated BOCs shall have debt ratios of approximately forty-five percent (except for Pacific Telephone and Telegraph Company which shall have a debt ratio of approximately fifty percent), and the quality of the debt shall be representative of the average terms and conditions of the consolidated debt held by AT&T, its affiliates and the BOCs

at that time. Upon application by a party or a BOC, the Court may grant an exception to this requirement.

I. The Court may act sua sponte to issue orders or directions for the construction or carrying out of this decree, for the enforcement of compliance therewith, and for the punishment of any violation thereof.

J. Notwithstanding the provisions of section I(A), the plan of reorganization shall not be implemented until approved by the Court as being consistent with the provisions and principles of the decree.

Entered this 24<sup>th</sup> day of August, 1982.

## APPENDIX B

### PHASED-IN BOC PROVISION OF EQUAL EXCHANGE ACCESS

A. 1. As part of its obligation to provide non-discriminatory access to interexchange carriers, no later than September 1, 1984, each BOC shall begin to offer to all interexchange carriers exchange access on an unbundled, tariffed basis, that is equal in type and quality to that provided for the interexchange telecommunications services of AT&T and its affiliates. No later than September 1, 1985, such equal access shall be offered through end offices of each BOC serving at least one-third of that BOC's exchange access lines and, upon bona fide request, every end office shall offer such access by September 1, 1986. Nothing in this Modification of Final Judgment shall be construed to permit a BOC to refuse to provide to any interexchange carrier or information service provider, upon bona fide request, exchange or information access superior or inferior in type or quality to that provided for AT&T's interexchange services or information services at charges reflecting the reduced or increased cost of such access.

2. (i) Notwithstanding paragraph (1), in those instances in which a BOC is providing exchange access for Message Telecommunications Service on the effective date of this Modification of Final Judgment through access codes that do not permit the designation of more than one interexchange carrier, then, in accordance with the schedule set out in paragraph (1), exchange access for additional carriers shall be provided through access codes containing the minimum number of digits necessary at the time access is sought to permit nationwide, multiple carrier designation for the number of interexchange carriers reasonably expected to require such designation in the immediate future.

(ii) Each BOC shall, in accordance with the schedule set out in paragraph (1), offer as a tariffed service exchange access that permits each subscriber automatically to route, without the use of access codes, all the subscriber's interexchange communications to the interexchange carrier of the customer's designation.

(iii) At such time as the national numbering area (area code) plan is revised to require the use of additional digits, each BOC shall provide exchange access to every interexchange carrier, including AT&T, through a uniform number of digits.

3. Notwithstanding paragraphs (1) and (2), with respect to access provided through an end office employing switches technologically antecedent to electronic, stored program control switches or those offices served by switches that characteristically serve fewer than 10,000 access lines, a BOC may not be required to provide equal access through a switch if, upon complaint being made to the Court, the BOC carries the burden of showing that for particular categories of services such access is not physically feasible except at costs that clearly outweigh potential benefits to users of telecommunications services. Any such denial of access under the preceding sentence shall be for the minimum divergence in access necessary, and for the minimum time necessary, to achieve such feasibility.

B. 1. The BOCs are ordered and directed to file, to become effective on the effective date of the reorganization described in paragraph I(A)(4), tariffs for the provision of exchange access including the provision by each BOC of exchange access for AT&T's interexchange telecommunications. Such tariffs shall provide unbundled schedules of charges for exchange access and shall not discriminate against any carrier

or other customer. Such tariffs shall replace the division of revenues process used to allocate revenues to a BOC for exchange access provided for the interexchange telecommunications of BOCs or AT&T.

2. Each tariff for exchange access shall be filed on an unbundled basis specifying each type of service, element by element, and no tariff shall require an interexchange carrier to pay for types of exchange access that it does not utilize. The charges for each type of exchange access shall be cost justified and any differences in charges to carriers shall be cost justified on the basis of differences in services provided.

3. Notwithstanding the requirements of paragraph (2), from the date of reorganization specified in section I until September 1, 1991, the charges for delivery or receipt of traffic of the same type between end offices and facilities of interexchange carriers within an exchange area, or within reasonable subzones of an exchange area, shall be equal, per unit of traffic delivered or received, for all interexchange carriers; provided, that the facilities of any interexchange carrier within five miles of an AT&T class 4 switch shall, with respect to end offices served by such class 4 switch, be considered to be in the same subzone as such class 4 switch.

4. Each BOC offering exchange access as part of a joint or through service shall offer to make exchange access available to all interexchange carriers on the same terms and conditions, and at the same charges, as are provided as part of a joint or through service, and no payment or consideration of any kind shall be retained by the BOC for the provision of exchange access under such joint or through service other than through tariffs filed pursuant to this paragraph.

C. 1. Nothing in this Modification of Final Judgment shall be construed to require a BOC to allow joint ownership or use of its switches, or to require a BOC to allow co-location in its building of the equipment of other carriers. When a BOC uses facilities that (i) are employed to provide exchange telecommunications or exchange access or both, and (ii) are also used for the transmission or switching of interexchange telecommunications, then the costs of such latter use shall be allocated to the interexchange use and shall be excluded from the costs underlying the determination of charges for either of the former uses.

2. Nothing in this Modification of Final Judgment shall either require a BOC to bill customers for the interexchange services of any interexchange carrier or preclude a BOC from billing its customers for the interexchange services of any interexchange carrier it designates, provided that when a BOC does provide billing services to an interexchange carrier, the BOC may not discontinue local exchange service to any customer because of nonpayment of interexchange charges unless it offers to provide billing services to all interexchange carriers, and provided further that the BOC's cost of any such billing shall be included in its tariffed access charges to that interexchange carrier.

3. Whenever, as permitted by this Modification of Final Judgment, a BOC fails to offer exchange access to an interexchange carrier that is equal in type and quality to that provided for the interexchange traffic of AT&T, nothing in this Modification of Final Judgment shall prohibit the BOC from collecting reduced charges for such less-than-equal exchange access to reflect the lesser value of such exchange access to the interexchange carrier and its customers compared to the exchange access provided AT&T.
