Hi Jason

- Giulio: Spent time crafting responses to legislative bodies and internal comms. Time spent ebbs and flows - to as much as 50% when needed, but then goes dark for awhile
- Marlena: Giulio's manager, so spending less time, but providing him guidance - ~5 to 10%
- me; reviewing responses to ensure I agree with all the content, so that if I am asked to testify I do not contradict our answers. Perhaps 15 to 20% and possibly growing
- Jenn in the context of understanding the antitrust perspective on how it impacts other privacy related work (so negligible)

Chris
