Americans deserve unbiased health care. We need judges and advocates to cut through the red tape that benefits the wealthy on the backs of middle America. How can the richest country in the world not cover the healthcare for all Americans? This is a travesty and can only change through our corrupt one sided system that benefits the wealthy. My husband is still working at 78 so we can have the best healthcare and not be a burden to our two children. If he wasn't working we couldn't pay the high monthly premiums. Every tax paying citizen should contribute to the healthcare system. The rich must pay more to balance the inequity. Who will step up and take responsibility?
Our system is broken.
