---

The UnitedHealth Group-Amedisys merger is just one of several recent examples of how the second Trump administration is trusting Big Medicine to put the public's interests above its own, despite decades of evidence to the contrary.

U.S. District Judge James Bredar, who is presiding over the case, must use his authority under the 1974 Tunney Act to scrutinize the Justice Department's proposed settlement in the best interest of the public.

Sincerely,
