UnitedHealth Group's proposed \$3.3 billion acquisition of home health and hospice care provider Amedisys will eliminate head-to-head competition between the merging parties. This would increase costs, destroy care quality, and harm working conditions for healthcare workers.

U.S. District Judge James Bredar, who is presiding over the case, must use his authority under the 1974 Tunney Act to scrutinize the Justice Department's proposed settlement in the best interest of the public.

Please block this acquisition. This acquisition will only add to the destruction of the health care system compounding the damage done by private equity firms.
