Dear Judge Bredar and Justice Dept.:

Please do not let United Healthcare off the hook. Where is their accountability? Our health care system is a mess and keeps getting worse. The corporations do not care about their patients health. They only care about their profits. Cost is always going up and service and quality are going down. The bigger they get, the more they operate to their own advantage.....and United Healthcare is the best example of running amok with no oversight.

I have family members who have suffered from their lack of caring.

They even control well meaning health professionals with their for profit algorithms.

Help us restore the "care" part of health care.

Thank you for listening,

Kathleen Myers
