To whom it may concern;

I work as an administrator in the medical field. There's a lot that is wrong with the healthcare system in this country but merging 2 large corporations is yet another very bad idea. This will be a monopoly that will eliminate competition between the merging parties that lowers costs, improves care quality, and betters working conditions for healthcare workers.

It seems the healthcare industry is always on the side of the large corporations and very large amounts of money for their CEOs and not on the side of American citizens.

Please look carefully at this settlement and please think about all those people who need home health and hospice care.

Thank you
Terry Yingling
