---

Why are you not investigating United Healthcare for multiple mega medical healthcare claim denials? They have deployed AI for denial of healthcare claims. This is so wrong. Yet there is nothing in government policy to demand that they take care of their patient's health. The same with big pharmaceutical companies. We pay the highest prices in the world for our pharmaceutical drugs. Trump can talk all he wants about pharmaceutical fair pricing vs the rest of the world, but there is nothing in policy to make them be fair to the people. The government will do nothing to help the people.
