Subject: Decrees

To provide a means for small businesses to stay in business, maintain the PRO decrees. My business is forced to pay expensive music licensing fees even though our facility has been closed due to Co Vid 19. The PROs should be required to refund money on a prorate basis.

It is likely that my business will no longer support professional musicians because of the need to license through BMI and ASCAP. So we , musicians loose, and the music licensing companies loose.
