**Subject:** it is not fair for the government to impose a law that makes 100% LICENSES POSSIBLE

If there are two creators of a music score or songs..

it is split 50/50... having a law pass that allows one side to collect 100% or to license 100%.

This does not even seem legal,. since the music piece in question would be a collaboration,. and intellectual property owned and created by two parties. So any license or any moneys paid to use a piece owned by two parties need to be collected as such and licensed as such

I am against any law that allows 100% licenses,. from both sides.... it has always been 50/50.. or an even split between PRO's//// because that is what makes sense.

this would cause huge problems . and be an attack as music artists as a whole.
