Meeting w/ Tony

- I told Tony that all I want to do is keep this in confidence and that I'm giving him a heads up that I'm going to have a meeting w/ JP and that I will need to set boundaries

- He said what about and what do I mean by wanting his report. I said that he spoke to me inappropriately and beat me and got extremely angry when he sent that email a few weeks ago. I said I feel uncomfortable and that I've been leaving the office by 5 every night to avoid issues.

He asked is this harassment / sexual harassment, etc? (which led to me saying details above). I said I don't feel we are there yet, I don't want to use words like that to trigger something. I said I am self-managing and that everyone deserves the benefit of me having a conversation w/ him 1st to try to resolve the issue. 

He said I understand so this a heads up. I said yes, I don't want you to do anything except keep my confidence, and so you'll know if something happens. I said I am trying to do this all by the book and this 

The advice that I got was to give ya ahead's
up. I said I waldnt want to do any of
that and I Certainly waldnt involve him unless
I thought it was absolutely necessary.
