

UNITED STATES DISTRICT COURT  
DISTRICT OF NEW HAMPSHIRE

UNITED STATES OF AMERICA

v.

ROBERT G. SOUCY JR.

Defendant.

Docket no. 1:23-cr-81-SM-AJ-01

21 U.S.C. §§ 841(a)(1) & 841(b)(1)(C)  
Distribution of Controlled Substances

**INDICTMENT**

The Grand Jury charges:

1. **ROBERT G. SOUCY JR.**, a Doctor of Osteopathic Medicine, was licensed by the State of New Hampshire Board of Medicine to practice osteopathic medicine in the State of New Hampshire.

2. As part of his practice, **ROBERT G. SOUCY JR.** prescribed controlled substances, including highly addictive opioids, under his U.S. Drug Enforcement Administration (“DEA”) registration number: B21092612.

3. **ROBERT G. SOUCY JR.** routinely prescribed various Schedule II and Schedule IV controlled substances to his patients and other individuals, outside the usual course of professional practice and without a legitimate medical purpose.

**BACKGROUND ON CONTROLLED SUBSTANCES**

4. The Controlled Substances Act (“CSA”) governed the manufacture, distribution, and dispensing of controlled substances in the United States. Under the CSA, the DEA regulated certain pharmaceutical drugs designated as “controlled substances” because of their potential for abuse or dependence, their accepted medical use, and their accepted safety for use under medical supervision. *See* 21 U.S.C. § 802(6).

5. The DEA issued registration numbers to qualifying practitioners, including

physicians, which permitted them to dispense Schedule II, III, IV, and V controlled substances consistent with the terms of that registration. 21 U.S.C. § 822.

6. Fentanyl, oxycodone, hydromorphone, and methadone were Schedule II controlled substances. Lorazepam and diazepam were Schedule IV controlled substances.

7. Under the CSA, it was unlawful to distribute or dispense a controlled substance, unless otherwise authorized by law. 21 U.S.C. § 841(a)(1). Except in limited circumstances, Schedule II controlled substances could not be dispensed without a written prescription. 21 U.S.C. § 829. “A prescription for a controlled substance to be effective must [have] be[en] issued for a legitimate medical purpose by an individual practitioner acting in the usual course of his professional practice.” 21 C.F.R. § 1306.04. “The responsibility for the proper prescribing and dispensing of controlled substances is upon the practicing prescriber ....” *Id.* “An order purporting to be a prescription issued not in the usual course of professional treatment ... [was] not a prescription within the meaning and intent of [S]ection [ ] 829 ....”). *Id.*
