APPENDIX G

NOTICE TO ALL RESIDENTS OF MODIFICATIONS TO THE PEDESTRIAN ROUTES AND TO THE PUBLIC AND COMMON USE AREAS

The federal Fair Housing Act requires that the pedestrian routes and the public and common use areas at this community have certain features of physical accessibility for persons with disabilities.

As a result of recent events, it has been brought to our attention that certain features of the pedestrian routes and of the public and common use areas can be modified to provide greater accessibility for persons with disabilities, consistent with the accessibility requirements of the federal Fair Housing Act. We welcome persons with disabilities as residents and guests of this community. We are writing to let you know that beginning on [REDACTED], 202[REDACTED], contractors will be accessing the property to begin the process of modifying certain aspects of the pedestrian routes and of the public and common use areas. We expect the process to last approximately [REDACTED] weeks.

Generally, the workers will modify or “retrofit” certain sidewalks, install curb cuts and ramps or modify existing ones, and eliminate some of the steps along certain pathways to certain units. They will also be making some modifications to the common areas to make them more accessible to persons with disabilities. We apologize for any inconveniences you may incur as a result of this work.

If you have any questions regarding these modifications, please contact us at [REDACTED].
