

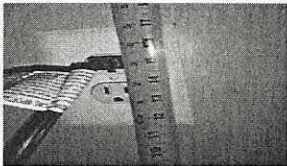

Exhibit 9.3

West Oaks Matrix of Retrofits to Covered Unit Interiors

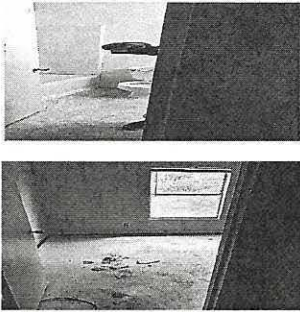

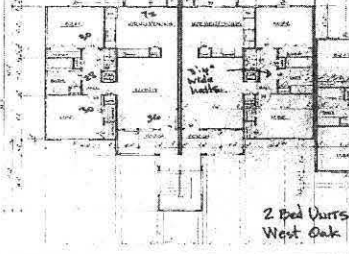

West Oaks Apartments: Covered Unit Interiors

| Inaccessible Features at Covered Dwelling Units | | | |
|---|---|---|---|
| Numbers | Photos | Deficiency | Required Retrofit |
| 1 |  | Covered dwelling units have inaccessible knob type hardware that requires tight grasping, pinching, and/or turning. | Install accessible lever door hardware at all covered ground floor dwelling units where the existing hardware is knob style to comply with ANSI 4.13.9. |
| | Required retrofits associated with the below line items shall be performed at 10 first floor units, eight two-bedroom units and two three-bedroom units. The units are as follows: Flavion Drive Building Units 101, 102, 103, 104, 105 and 106; Building 2100, Units 101 and 102; and Building 2117, Units 101 and 102. See Accessible Route Plan. | | |
| 2 | | Thermostats are mounted higher than 48" above finished floor. | Lower thermostats to comply with Requirement 5. |
