C. Police Foundation Team Qualifications

Incorporated in 1970, the Police Foundation is the oldest nationally known, independent, nonprofit, non-partisan, and non-membership driven organization dedicated to improving policing in America. The Police Foundation has been on the cutting edge of police innovation since its establishment 45 years ago, with a mission to advance policing through innovation and science. The Police Foundation has been engaged in empirical research and the provision of technical assistance focused on community policing and community engagement since its establishment.

Over the Police Foundation's history, its leadership has insisted that the organization's work have a practical impact on policing, that the knowledge gained through empirical investigation be such that it could be applied outside the "laboratory," with the end result being improvement in the way that police do their work. A cadre of Police Foundation Executive Fellows - current or retired executive-level members of criminal justice organizations whose knowledge, experience and skills help advance the Foundation's mission - serve as members of the President's Practitioner Advisory Board to help ensure the Foundation is grounded in a comprehensive understanding of the practical needs of law enforcement organizations.

Most recently, the Police Foundation worked closely with the U.S. Department of Justice and the St. Louis County Police Department to engage in a Collaborative Reform process. This process aims to independently and objectively analyze and assess individual law enforcement department policies, procedures, and tactics, with the goal of issuing recommendations to 1) help change the ways that law enforcement agencies build community partnerships and enhance transparency; 2) transform organizational structure, policies, practices and culture through administrative rule-making; and 3) institutionalize reforms with integrated accountability measures. Our work in St. Louis County provides us with insights into the strengths and challenges faced by local jurisdictions and communities in this area, the resources that may be available, and county, regional, and state infrastructures and political processes.

We have assembled a highly qualified team of experts to serve as the Independent Monitor of the Ferguson Consent Decree. Team qualifications, specific to the qualifications described in the RFA, are summarized below. In addition, Police Foundation staff resources and Executive Fellows are poised to support the various needs of this engagement. Full resumes are provided at the end of this section.

E. Potential Conflicts of Interest or Bias

Since its establishment 45 years ago, the Police Foundation has conducted law enforcement related research, technical assistance, and technology and data projects with funding from private foundations and various U.S. Department of Justice agencies, including the Bureau of Justice Assistance, National Institute of Justice, and the COPS office. Most of this funding supports related yet distinctively different types of work, focused on researching law enforcement operational, management, or investigative strategies, or the development and provision of technical assistance and information dissemination to support the implementation of effective law enforcement strategies in departments nationwide.

The Police Foundation currently has a grant to provide Collaborative Reform technical assistance to police departments identified by the US Department of Justice COPS Office. Under this grant, we have been providing Collaborative Reform technical assistance to the St. Louis County Police Department (SLCPD) since 2014, working closely with Chief Jon Belmar. We have completed our assessment of SLCPD and are now in the monitoring and technical assistance phase of this work, ensuring that the County continues to implement the agreed upon recommendations. A report on this project can be found at: https://cops.usdoj.gov/RIC/Publications/cops-p316-pub.pdf. Given that this work focuses exclusively on the St. Louis County Police Department, we believe it does not present a conflict of interest or present any bias regarding the Independent Monitor role in Ferguson, but enhances the Police Foundation's understanding of regional, cultural and local conditions that are unique to the St. Louis and Ferguson area.

Frank Straub was employed by the U.S. State Department, U.S. Naval Investigative Service, and the U.S. Department of Justice Office of the Inspector General in the 1980s and 1990s. This employment history of over 20 years ago does not present any conflict or bias with the presenting Ferguson Consent Decree. As Chief of Police in Spokane (WA) Straub worked with the U.S. Department of Justice to lead his department through the Collaborative Reform process. While this experience informs Straub's understanding of police department reform, it does not present a conflict or bias with regard to the presenting Ferguson Consent Decree. As an employee of the Police Foundation, Straub interacts with various U.S. DOJ Project Managers in capacities specific to ongoing Police Foundation projects unrelated to the presenting Ferguson Consent Decree. Straub is currently the plaintiff in a federal civil rights (42 USC 1983) suit filed against the City of Spokane, the Mayor, City Attorney, and City Administrator. This issue is unrelated to the presenting Ferguson Consent Decree.

Hassan Aden, while employed by the International Association of Chiefs of Police (IACP), interacted with various U.S. DOJ Directors and Project Managers in capacities specific to IACP projects unrelated to the presenting Ferguson Consent Decree. Aden serves on the Police Foundation Collaborative Reform technical assistance team assigned to SLCPD (as described above). Aden currently serves as Project Director for the Police Assessment Resource Center (PARC) Seattle Consent Decree monitoring team, led by Merrick J. Bobb, and in that capacity engages with U.S. Department of Justice attorneys and staff. Although similar work, engaging on both projects is not considered a conflict. Aden is related to Shelly Jackson, Deputy Chief (DOJ/CRT-Special Litigation Section), who is his aunt by marriage. This relationship does not impede his ability to perform the duties specified in the RFA for the

Ferguson Consent Decree. Aden and Jackson fully understand the boundaries of the familial relationship as they pertain to their respective work.

Breanne Cave was employed by the Department of Defense / United States Marine Corps as an active duty officer from 2005-2008, and as an officer in the Marine Corps Reserves from 2012-2015. She is currently a co-principal investigator on a Smart Policing Initiative project funded by the Bureau of Justice Assistance (BJA-2015-4066), which involves an examination of police and fire responses to individuals with mental illness and cognitive deficits in Shoreline (WA). These work experiences and projects are unrelated to the Ferguson Consent Decree and do not present a conflict or bias with regard to the Decree or this RFA.

Howard Rahtz was a U.S. Peace Corps volunteer in 1976 – 1978. Rahtz has written a book, *Race, Riots and The Police*, to be published by Rienner Press in July of 2016. The book reviews the history of race related riots going back to 1919 and the police role in these events. The book includes a number of suggested steps to improve the relationship between the police and the African American community. The events in Ferguson are reviewed in the book. All source material was taken from media reports as well as the two U.S. DOJ reports on Ferguson released in 2015. There was no contact with any individual in Ferguson as part of the book research.

Andrea Cabral is and has been named as the subject of lawsuits as a result of her official capacity as Suffolk County Sheriff, in association with the Suffolk County Sheriff's Department, and Massachusetts Secretary of Public Safety, the Suffolk County House of Correction, and the Commonwealth of Massachusetts.

Ben Gorban supports the provision of Collaborative Reform technical assistance to the St. Louis County Police Department (SLCPD). He was employed as Clerk for the U.S. Department of Justice from 2006 - 2008, assisting with administrative tasks that are unrelated to the presenting Ferguson Consent Decree. These roles do not present any potential conflicts or biases in regards to this RFA.

F. Estimated Costs

This section includes Pricing Assumptions and Police Foundation's Proposed Budget. The costs proposed here were derived upon careful consideration of the Scope of Work, as described in the referenced RFA.

- b. Police Foundation will have access to necessary information and personnel from all Parties to complete monitoring responsibilities.
- c. The proposed project will last up to five years in duration.

Designated Point of Contact (POC): For the purposes of this proposal and negotiations with the Police Foundation the designated point of contact is:

Blake Norton, Chief Operating Officer

Police Foundation 1201 Connecticut Avenue, NW Suite 200

Washington, DC 20036 Phone: 202-833-1460

Budget Overview and Notes

The Police Foundation proposes a budget that is reasonable and consistent with the requirements of the RFA. You will note that our budget allocates the vast majority of funding towards compensation for Monitoring Team Executives, followed by travel. The Police Foundation recognizes that in order to perform this work, significant administrative and support staff time will be required. Given the importance of this work, we will consider those costs as in-kind contributions toward this effort. These anticipated in-kind contributions are not included in the budget presented.

Onsite and offsite personnel time commitments are distinguished in the budget presented for each of the projected five years. Consultant onsite and offsite estimates are included for Year One. We anticipate onsite days will decrease over the course of the projected five years.

Proposed Budget

The cost for the proposed work is provided below.
