21st Century Integrated Digital Experience Act - Progress Report on Implementation and Modernizing Agency Websites and Digital Services

As required by the [21st Century Integrated Digital Experience Act](#) (21st Century IDEA), this report describes the Department’s progress in modernizing key websites and digital services operated by Department of Justice.

Key Websites and Digital Services

In our previous reports on this matter in 2019 and 2020, Department of Justice identified the following websites and digital services as high-traffic and/or important for public engagement. These sites continue to be the most significant and widely used websites in 2021, accounting for more than 91 percent of all viewing sessions for websites maintained by the Department of Justice during the months of January – November 2021. The sites are listed here in order from highest to lowest number of user sessions recorded.

Modernization Progress

In our previous annual reports, the websites listed above were assigned to a three-phase schedule for modernization and compliance, with websites in phase one beginning modernization in FY2020. As reported last year, the Department is pleased to report that work to modernize all these websites is either in progress or complete. The following table shows the status for these efforts as of December 2021.
