Please see below and address this with Thibault. Pharmaceutical companies cannot provide reimbursement assistance of any kind to patients covered in any way by a government insurance program. We can provide donations to independent Foundations for specific disease states, such as Wet Age-related Macular Degeneration that provide assistance to patients under their own criteria uninfluenced by donors. Donors have no rights to information of any sort on disposition of funds.

Based upon our profitable growth in 2012, we were able to increase our grant in 2013 to the Chronic Disease Fund's wet AMD fund. We cannot ask for any information from the CDF. We gave a charitable donation.

Bob,
Please see below. I am not really comfortable asking for the documentation he is requesting. I wanted to know your thoughts.

Regards,

Bil

Subject: Co-pay referrals to non-profit organizations - Follow Up Questions

Bill,

Hope all is well. I have a few questions regarding the co-pay referrals to non-profit organizations. You mentioned yesterday that we make some payments to some of these non-profit organizations (like Chronic Disease Fund). I was wondering if:

- You could provide us some detail around the rationale for the amount paid. If the amount is based on some analysis, it would be very helpful if could provide it to us.
- Do we get feedback reports from these non-profit organizations on how money given by Regeneron is actually being spent? If so, what is the frequency?

Thank you
Thibault
