Department of Justice Visitor Health Self-Screening Form

This form should be reviewed and completed by all visitors to Department of Justice facilities. In most cases, visitors will be asked only to acknowledge that they have assessed their health on the day of the visit using this form. While visitors are encouraged to complete the questionnaire in writing, they will not be required to submit or show the questionnaire to security personnel and/or the sponsor of the visit meeting them at the point of entry. Failure to acknowledge completion of the questionnaire may result in denial of entry to Department of Justice buildings and facilities.

Health Screening Questions

Please consider all questions that apply to you and follow the directives and recommended steps below based on your response:

1. Regardless of your vaccination status, have you experienced any of the symptoms in the list below in the past 48 hours? Consider answering “yes” even if you believe the symptom(s) is because of some other medical condition (for example, consider answering “yes” if you have a runny nose that you believe is because of allergies).

   - Fever or Chills
   - Severe Muscle or Body Aches
   - Cough
   - Sore Throat
   - Shortness of Breath or Difficulty Breathing
   - New Loss of Taste or Smell
   - Diarrhea
   - Congestion or Runny Nose

   Yes  
   No

   If your answer is “yes” to having any of these symptoms, please reschedule your visit.

   Please consider rescheduling your visit if you have the following symptoms:

   - Fatigue
   - Headache

2. Are you currently in the isolation period after testing positive for COVID-19 or are you worried that you may be sick with COVID-19?

   Yes  
   No

   If your answer is “yes” you may not enter Department of Justice facilities at this time.

   If you have concerns about being sick with COVID-19, please stay home and isolate. Read more about when you should be in isolation or quarantine on the CDC’s website: https://www.cdc.gov/coronavirus/2019-ncov/your-health/quarantine-isolation.html
3. Have you been in close physical contact in the last 10 days with:

- Anyone who is known to have a confirmed case of COVID-19? OR
- Anyone who has any symptoms consistent with COVID-19?

Close physical contact is defined as being within 6 feet of an infected/symptomatic person for a cumulative total of 15 minutes or more over a 24-hour period starting from 48 hours before illness onset (or, for asymptomatic individuals, 48 hours prior to test specimen collection).

Yes  
No

*If your answer is “no” you may enter Department of Justice facilities. If your answer is “yes” continue to question 4.*

4. If you answered “yes” to question 3, are you up to date with your COVID-19 vaccines, including recommended booster shots or additional primary shots, OR have you had a case of COVID-19 confirmed with a viral test within the last 90 days from which you are fully recovered and symptom free?

Yes  
No

*If your answer is “yes” and you are asymptomatic, you may enter Department of Justice facilities, but you must wear a well-fitting mask when around others and follow all other applicable safety protocols.*

*If your answer is “no” you may only enter the Department of Justice facilities if your close contact exposure was more than 5 days ago, you are asymptomatic, AND you wear a well-fitting mask when around others and follow all other applicable safety protocols. Otherwise, you may not enter Department of Justice facilities at this time.*

5. Are you currently waiting for the results of a COVID-19 test based on actual or suspected exposure to someone infected with COVID-19? Important: This does not apply to routine screening tests, such as pre- or post-travel testing not triggered by suspected exposure.

Yes  
No

*If your answer is “yes” you may not enter Department of Justice facilities at this time and should follow all CDC-recommended guidelines depending on the results of your test.*

If based on your responses you must reschedule your visit to Department of Justice facilities, please see the instructions below:

- If you are not already at home, please avoid contact with others and go home immediately.
- Seek medical advice and care as needed.
- Seek COVID-19 testing as recommended.
- In case of a life-threatening medical emergency, dial 911 immediately.
- Contact the sponsor of your visit or other official to reschedule your visit when it is safe for you to do so.
