information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the United States Victims of State Sponsored Terrorism Fund, Criminal Division, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

1. Type of Information Collection: Revision of a currently approved collection.

2. The Title of the Form/Collection: Application Form for the United States Victims of State Sponsored Terrorism Fund (USVSST Fund).

3. The agency form number, if any, and the applicable component of the Department sponsoring the collection: There is no agency form number for this collection. The applicable component within the Department of Justice is the Criminal Division, USVSST Fund.

4. Affected public who will be asked or required to respond, as well as a brief abstract:

   Primary: Individuals or households. Abstract: The USVSST Fund was established to provide compensation to certain individuals who were injured as a result of acts of international terrorism by a state sponsor of terrorism. Under the Justice for United States Victims of State Sponsored Terrorism Act (Act), 34 U.S.C. 20144(c), as amended, an eligible claimant is (1) a U.S. person, as defined in 34 U.S.C. 20144(j)(8), with a final judgment issued by a U.S. district court under state or federal law against a state sponsor of terrorism and arising from an act of international terrorism, for which the foreign state was found not immune under provisions of the Foreign Sovereign Immunities Act, codified at 28 U.S.C. 1605A or 1605(a)(7) (as such section was in effect on January 27, 2008); (2) a U.S. person, as defined in 34 U.S.C. 20144(j)(8), who was taken and held hostage from the United States Embassy in Tehran, Iran, during the period beginning November 4, 1979, and ending January 20, 1981; or the spouse and child of that U.S. person at that time, who is also identified as a member of the proposed class in case number 1:00–CV–03110 (EGS) of the United States District Court for the District of Columbia; or (3) the personal representative of a deceased individual in either of those two categories. The information collected from the USVSST Fund’s Application Form will be used to determine whether applicants are eligible for compensation from the USVSST Fund, and if so, the amount of compensation to be awarded. The Application Form consists of parts related to eligibility and compensation. The eligibility parts seek the information required by the Act to determine whether a claimant is eligible for payment from the USVSST Fund, including information related to participation in federal lawsuits against a state sponsor of terrorism under the Foreign Sovereign Immunities Act. The compensation parts seek the information required by the Justice for United States Victims of State Sponsored Terrorism Act, as amended, to determine the amount of compensation for which the claimant is eligible. Specifically, the compensation parts seek information regarding the amount of compensatory damages awarded the claimant in a final judgment as well as any payments from sources other than the USVSST Fund, as defined in 34 U.S.C. 20144(j)(6), that the claimant received, is entitled to receive, or is scheduled to receive, as a result of the act of international terrorism by a state sponsor of terrorism. The Application Form was revised with formatting changes and removal of certain information requests to minimize respondents’ collection burden. There are changes in the revised Application Form, but it contains the same information regarding eligibility and compensation.

   The USVSST Fund may require an eligible claimant to supplement his or her application by submitting additional forms. These additional supplementary forms include information related to: (1) An acknowledgment and certification by applicants and their attorneys regarding the statutory provision on the amount of attorneys’ fees; (2) an authorization for the USVSST Fund to communicate with individuals identified by an appendix regarding his or her claim; (3) a certification of the personal representative of a deceased individual regarding the USVSST Fund award for the decedent’s estate; (4) a claimant’s decision to change an attorney or representative; (5) a hearing request upon receipt of a decision denying the claim in whole or in part; and (6) electronic payment information.

   5. An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: It is estimated that 700 respondents may complete the Application Form. It is estimated that respondents will complete the paper form or the electronic form in an average of 1.25 hours.

   6. An estimate of the total public burden (in hours) associated with the collection: The estimated public burden associated with this collection is 875 hours.

DEPARTMENT OF JUSTICE
Notice of Lodging of Proposed Consent Decree Under Clean Air Act

On September 19, 2022, the Department of Justice lodged a proposed consent decree with the United States District Court for the District of Puerto Rico in the lawsuit entitled United States v. TotalEnergies Marketing Puerto Rico Corporation, Civil Action No. 3:22–cv–1454.

In that action, the United States sought, pursuant to the Clean Air Act, 42 U.S.C. 7401, et seq., injunctive relief and recovery of a civil penalty regarding TotalEnergies’ petroleum storage and distribution facility in Guaynabo, PR (“Facility”). TotalEnergies operated some of the Facility’s storage tanks in a manner that created a risk of fire, and operated its truck loading rack in a manner that allowed excess petroleum vapors to escape to the atmosphere. The proposed Consent Decree requires TotalEnergies to upgrade its tanks and loading rack and implement maintenance measures to ensure that the Facility is in compliance with the Clean Air Act and its implementing regulations. The proposed Consent...
Decree also requires TotalEnergies to pay a $500,000 civil penalty.

The publication of this notice opens a period for public comment on the proposed Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to United States v. TotalEnergies Marketing Puerto Rico Corporation, Civil Action No. 3:22-cv-1454, D.J. Ref. No. 90–5–1–1–10983/1. All comments must be submitted no later than 30 days after the publication date of this notice. Comments may be submitted either by email or by mail:

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request; Account Management Profile

AGENCY: National Science Foundation.

ACTION: Submission for OMB review; comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995. This is the second notice for public comment; the first was published in the Federal Register, and no comments were received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice.

DATES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAmain. Find this particular information collection by selecting “Currently under 30 Day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:
Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, Virginia 22314; telephone (703) 292–7556; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

Comments: Comments regarding (a) whether the proposed collection of information is necessary for the proper performance of the functions of the NSF, including whether the information shall have practical utility; (b) the accuracy of the NSF’s estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, use, and clarity of the information respondents; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to the points of contact in the FOR FURTHER INFORMATION CONTACT section.

Copies of the submission may be obtained by calling 703–292–7556. NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number, and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION: Title of Collection: Account Management Profile.

OMB Control No.: 3145–NEW.

Type of Request: Intent to seek approval to establish an information collection for three years.

Abstract: The purpose of the National Science Foundation’s (NSF) Account Profile is to collect information (contact information, demographic information, and academic/professional information) on Research.gov. This profile will assist the NSF in maintaining a centralized registration and profile management process for individuals. NSF may track information provided over time to review and evaluate NSF programs, facilitate proposal submission, simplify reviewer activities, and provide data for the selection and management of reviewers and related merit review functions. Collecting this information supports the program officers across each directorate by improving efficiencies for internal staff, leveraging consolidated profile data, and creating a seamless user experience for the scientific community. This process will also provide researchers with a consolidated profile and access to their information in the Research.gov system, with the ability to easily access and update their information as necessary over the course of their respective research career and in all official interactions with NSF, as applicant, awardee (Fellow, Principal Investigator (PI), co-PI, sub awardee, consultant), institutional representative, reviewer, or in other roles. In addition, the Biden Administration has made it a priority to deliver services more equitably and effectively via Executive Order 14058, Transforming Federal Customer Experience and Service Delivery to Rebuild Trust in Government. The President directed heads of agencies to integrate activities to improve customer experience and identify means by which their respective agencies can improve transparency and accessibility for their customers. This expansion effort will allow users, including those with a Principal Investigator role, a Reviewer role, or those applying to the Graduate Research Fellowship Program (GRFP), or those designated as current Fellow with GRFP, to self-report and self-manage demographic and academic/professional information over the course of their respective research careers.

Use of the Information: Information collected as part of the NSF Account Profile (contact information, demographic information, and academic/professional information) on Research.gov will enable program officials to select diverse panels and expand opportunities to increase participation from underrepresented groups and diverse institutions throughout the United States in all NSF activities and programs. The information provided over time will
