The complaint, as amended and supplemented, alleges violations of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, based upon the importation into the United States, the sale for importation, and the sale within the United States after importation of certain power semiconductors, and mobile devices and computers containing same by reason of infringement of claims 1 and 2 of U.S. Patent No. 7,183,835 (“the ‘835 Patent”) The Commission’s notice of investigation named thirteen (13) respondents: (1) Samsung Electronics Co., Ltd. of Suwon, Republic of Korea and Samsung Electronics America, Inc.

of Ridgefield Park, New Jersey (collectively, “the Samsung Respondents”); (2) Google LLC of Mountain View, California; Lenovo Group Ltd. of Beijing, China; Lenovo (United States) Inc. of Morrisville, North Carolina; Motorola Mobility LLC of Chicago, Illinois; Microsoft Corporation of Redmond, Washington; and OnePlus Technology (Shenzhen) Co., Ltd. of Guangdong, China (collectively, “the Additional Settling Respondents”); (3) TCL Electronics Holdings Limited and TCL Communication Limited, both of Hong Kong Science Park, Hong Kong; TTE Technology Inc. of Corona, California; and TCT Mobile (USA) Inc. of Irvine, California (collectively, “the TCL Respondents”); and (4) Apple Inc. of Cupertino, California. The presiding ALJ held an evidentiary hearing in this investigation on February 13-17, 2023.

On May 18, 2023, the presiding ALJ issued the subject ID finding no violation of section 337 because: (1) Arigna failed to prove that the accused Qualcomm Chips or Qorvo Chips infringe the asserted claims of the ‘835 Patent; (2) Arigna failed to satisfy the technical prong of the domestic industry requirement; and (3) Arigna failed to satisfy the economic prong of the domestic industry requirement. The ID also finds that the asserted claims of the ‘835 patent have not been shown to be invalid as anticipated and/or obvious in view of certain asserted prior art or for lack of written description.

No party filed a petition for review of the subject ID.

Having reviewed the record of the investigation, including the final ID and the parties’ submissions to the ALJ, the Commission has determined to review the ID in part and, on review, to affirm the ID’s finding that Arigna has not satisfied the economic prong of the domestic industry requirement.¹ The

¹ On review, Commissioner Karpel notes that she disagrees with the ID’s *per se* exclusion of investments in post-sale technical service and

Commission has determined not to review the remainder of the final ID. The investigation is hereby terminated.

By order of the Commission.

Issued: July 17, 2023.

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Clean Air Act

On July 13, 2023, the Department of Justice lodged a proposed consent decree with the United States District Court for the Northern District of New York in *United States v. Upstate Shredding, LLC, and Weitsman Shredding, LLC*, 3:23-cv-847 (N.D.N.Y.).

The United States filed a complaint against Upstate Shredding, LLC and Weitsman Shredding, LLC (“Upstate”) under section 113(a)(1) of the Clean Air

support, including field engineering and product line marketers, who engage in customer-facing engineering activities as non-qualifying investments. In her view, the statute does not require the *per se* exclusion of plant and equipment investments or employment of labor or capital in customer-facing engineering activities with respect to articles protected by a patent, whether or not they are characterized as sales and marketing. *See Certain Artificial Eyelash Extension Systems, Products Containing Same, and Components Thereof*, Inv. No. 337-TA-1226, Separate Views of Commissioners Karpel and Schmidlein, at 35-36 (Oct. 24, 2022) (“There is no statutory prohibition against inclusion of these types of expenses; rather, the key is whether the expenses properly fall within (A) or (B).”); *Certain Vacuum Insulated Flasks and Components Thereof*, Inv. No. 337-TA-1216, Comm’n Notice, 86 FR 59424, 49425 (Oct., 27, 2021) (“As the Commission has previously stated, “[w]hile marketing and sales activity, alone, may not be sufficient to meet the domestic industry test, those activities may be considered as part of the overall evaluation of whether or not a Complainant meets the economic prong.” (quoting *Certain Solid State Storage Drives, Stacked Electronics Components, and Products Containing the Same*, Inv. No. 337-TA-1097, Comm’n Op. at 22 (June 29, 2018))). In this investigation, Arigna has failed to establish that any articles practice one or more claims of the ‘835 patent, and thus Arigna cannot satisfy the domestic industry requirement regardless of the magnitude or alleged significance of Microchip expenditures considered for the economic prong of the domestic industry requirement.

Act, 42 U.S.C. 7413(a)(1), and the New York state implementation plan. In the complaint, the United States seeks injunctive relief and civil penalties arising from alleged excess emissions of volatile organic compounds at the defendants' metal shredding facility in Owego, NY. The proposed consent decree requires the defendants to pay a civil penalty of \$400,000, plus interest accruing from the date of entry to the payment date; and to install pollution control technology to limit future emissions of volatile organic compounds.

The publication of this notice opens a period for public comment on the consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Upstate Shredding, LLC, and Weitsman Shredding, LLC*, D.J. Ref. No. 90–5–2–1–12564. All comments must be submitted no later than thirty (30) days after the publication date of this notice.
