DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Modification of Consent Decree under the Comprehensive Environmental Response, Compensation, and Liability Act

On April 26, 2024, the Department of Justice lodged a proposed Agreement and Order Regarding Fourth Modification of Consent Decree with the United States District Court for the Southern District of Texas in the lawsuit entitled *United States v. French Limited, Inc., et al.*, original case No. H–89–2544 (new case No. 4:89–cv–2544).

The original Consent Decree, entered by the Court on March 7, 1990, resolved the United States’ claims, on behalf of the United States Environmental

Protection Agency (EPA), against eighty-six (86) Settling Defendants under the Comprehensive Environmental Response, Compensation, and Liability Act, as amended (“CERCLA”), 42 U.S.C. 9601 *et seq.*, for contamination at the French Limited Superfund Site located near Crosby, Texas (the Site). Pursuant to the 1990 Consent Decree, Settling Defendants are obligated to perform response activities at the Site as selected by EPA in a Record of Decision signed on March 24, 1988, or have resolved their Site liability through a cash payment. Certain Settling Defendants known as the French Limited Trust Group (Group) remain responsible for ongoing work under the 1990 Consent Decree.

In response to new information, and after notice and consideration of public comments on its proposal, on September 30, 2014, EPA revised the groundwater remedy for the Site through an Amendment to the Record of decision. The proposed Agreement and Order Regarding Fourth Modification of Consent Decree is between the United States and the sixteen Settling Defendants who are signatories to that Agreement and Order and would modify the Consent Decree to reflect the revised work requirements of the 2014 ROD Amendment, provide for the reimbursement to EPA of certain EPA response costs, and provide for the disbursement to members of the working Group of funds received by EPA in a Bankruptcy Settlement payment for the Site.

SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

The collection of actual Unemployment Insurance (UI) administrative cost data from states' accounting records and projected expenditures for upcoming years is accomplished through the RJM data collection instrument. The data collected consist of program expenditures and hours worked by state staff, broken out by functional activity, for the most recently completed Federal fiscal year. These actual cost data, in combination with projected workloads, are used by ETA's UI administrative resource allocation model to distribute states' UI program administration funds. Section 303(a)(6) of the Social Security Act authorizes this information collection.

This information collection is subjected to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.
