

*Appendix to the Consent Decree in United States and New Mexico Environment Department v.
United Nuclear Corporation*

APPENDIX A

Property Description and Map

Appendix A

Site Names, Location, and Description

UNC Site: The UNC Site is a non-operating uranium mill located approximately 17 miles northeast of Gallup, New Mexico, in McKinley County (Site Location Map, Figure 1). The UNC Site is listed on the National Priorities List (NPL). The NPL is the list, compiled by EPA, of uncontrolled hazardous substance releases in the United States that are priorities for long-term remedial action and response. The UNC Site is generally comprised of the former ore processing mill facilities and a byproduct material (i.e., tailings) disposal area (hereinafter the Tailings Disposal Area), which cover about 25 and 100 acres, respectively.

The UNC Site is owned by United Nuclear Corporation (UNC) (now an indirect subsidiary of General Electric Company (GE)). The UNC Site is located within Section 2, Township 16 North, Range 16 West. In addition to Section 2, UNC owns the land located northeast of the UNC Site Tailings Disposal Area that is within Section 36, Township 17 North, Range 16 West and is bounded on the north by the Navajo Nation Indian Reservation (Figure 1). Sections 2 and 36 represent the Site Boundary.

NECR Site: The NECR Site is a non-operating uranium mine located less than one mile northwest of the UNC Site. The NECR Site is located within an area of approximately 125 acres, the greater part of which is located on lands held by the United States in trust for the Navajo Nation. A portion of the NECR Site is located on land owned by UNC. The NECR Site is located within Sections 34 and 35 of Township 17 North, Range 16 West and Section 3 of Township 16 North, Range 16 West at the termination of State Highway 566, approximately 17 miles northeast of Gallup, New Mexico, in McKinley County (Figure 1).
