Re: Dixie Metals, Inc. Manifests

Dear Mr. Leed:

Subsequent to your telephone call to Marine Shale Processors, Inc. (MSP) on February 8, 1990, we launched an internal investigation to determine whether MSP had received any materials from Dixie Metals, Inc. After reviewing all of MSP's files, and in particular, the copies of manifests provided to us by Dixie Metals, Inc., we have determined that no materials have ever been received from Dixie Metals, Inc. either directly or indirectly.

Our records indicate that Hazardous Waste Management, Inc., a broker, did send data sheets to MSP on behalf of Dixie Metals, Inc.; that MSP did issue letters approving the materials for shipment to the MSP aggregate manufacturing plant in Amelia, Louisiana; and that MSP did issue quotes to Hazardous Waste Management, Inc. for those materials. Nevertheless, those materials were never shipped to MSP.

The manifests copies provided to us by Dixie Metals, Inc. are on forms preprinted by MSP. The preprinted numbers on the manifests are those for manifests provided by MSP to Hazardous Waste Management, Inc. for use in sending materials to MSP. These manifests were never used to ship Dixie Metals, Inc. materials to MSP.

For your information, I have included a copy of a memorandum submitted to me by Barbara Fontenot who administers MSP's manifest program at our plant. Based on her investigation, and the actual signatures of Barbara Fonseca and Gail Leonard (samples included), it is clear that someone has forged the signatures of these MSP employees on the manifests.

We appreciate your notification to MSP that someone is using our preprinted manifests in an unauthorized manner. By copy of this letter, we are notifying both EPA, Region VI, and the Louisiana Department of Environmental Quality, that there are manifests indicating that MSP has received materials, but that such materials were never actually delivered to MSP.

INTEROFFICE MEMO

TO: George Eldredge SUBJECT: Dixie Metals Manifest

FROM: Barbara Fontenot DATE: February 19, 1990

On February 8, 1990 we received a call from Mr. Jeff Leed with Exide Corporation. He requested information about manifests which he said we had received from Dixie Metals Company during the months of January, February, and June in 1989. Gail Leonards conducted a search thru our manifest copies and she did not find any copies from Dixie Metals on file. She brought this to my attention and I instructed her to search thru the files again and to check the computer print out for the tonnage and quantity received report for those dates. She did and those reports show no receipt of material from that generator. I asked Gail to call Jeff Leed and have him fax over copies of the manifest he had on file.

On the morning of February 9, 1990 the copies came over the fax. After reviewing the copies, I noted several things that were wrong. On manifest number 906738 Barbara Fonseca does not work at the plant and is not authorized to sign manifest. On line item 11 a, column I, the Texas regulatory number would have been lined thru and indicated in section 19 why we did so. On manifest 810487 the signature in section 20 is not Gail Leonard's signature and also in column I the TWC910450 is Texas regulatory number and we always line thru those numbers and indicate in section 19 that we did so and why. On manifest 906744 the signature in section 20 is not Gail Leonards. Section 19 was completed on a typewriter and we never type discrepancies on the manifest. They are always hand written. It also states that the manifest was signed by an agent and we never authorize agents to sign for the generator. The Texas waste code was not lined thru in column I.

After noticing these things, I called to speak with Jeff Leed but I was told he would be out of the office until February 14th. I spoke with Carlos Sheirer of Leed and I explained to him that I could not read some of the areas on the fax copies and I requested he federal express to me some clean copies of the manifest. On February 13th I still had not received the copies so I called Carlos Sheirer and he told me I would have to speak with Jeff Leed on Wednesday because he could not locate the copies of the manifest in their office. Called Jeff Leed on 2-14-90 and he was in a meeting and I left a message for him to call me.

When I spoke with Carlos Sheirer I asked him why Exide Corporation out of Reading, Pa. was calling about Dixie Metals out of Dallas, Texas. Carlos told me that Dixie Metals is a subsidiary of Exide corporation.

Talked to Jeff Leed morning of Feb. 15th. He will call Dixie Metals and have them federal express good clean copies to me. Received same on February 16, 1990.

LAND DISPOSAL RESTRICTIONS INFORMATION

00010

Customer Name: DIXIE METAL INC. Customer EPA ID Number: TXD06899962
Customer Address: 3030 MCGOWAN MCDS Document Number: 908682
DALLAS TX 75216 HWM/DMC/8901358

Under manifest number(s): 908682/HWM/DMC/8901358, we are shipping to you, for use in the MSP recycling process, recyclable materials stream(s) classified as EPA Hazardous Waste Number(s):

WASTE LUBE OIL D008R

A. The EPA land disposal restriction regulations (40 CFR 268)

☐ APPLY to these materials, under the following category or categories:

☐ Solvent/dioxin (See Attach. 1)

☐ California list, specifically (See Attach. 2):

☐ "First Third" list (See Attach. 3)

☒ DO NOT apply to this stream. (Skip following questions. Sign on bottom of page.)

B. The stream cannot be landfilled because (check one):

- ☐ 1. Incineration or recycling is the required technology to be used (See 40 CFR 268.42.), or
- ☐ 2. PCB's (ARE NOT acceptable and NOT approved for shipment to MSP), or
- ☐ 3. After November 8, 1988 ... wastes, except wastewaters, containing Halogenated Organic Compounds in total concentration of 1000 mg/kg or 1000 mg/l, or more., or
- ☐ 4. The stream is an F001-F005 solvent, or a "First Third" waste containing organics or other non-metals (Attach. 3, Item 1). The following constituents identified in Table CCW or Table CCWE (See Attach. 4) of 40 CFR 268, must be treated to at least the level specified below (use reverse side for additional constituents):

Constituent	Treatment Standard	Per Table	
		CCW	CCWE

- ☐ 5. The stream is a liquid that is primarily water and contains HOC's in total concentration greater than or equal to 1,000 mg/l and less than 10,000 mg/l HOC's, or
- ☐ 6. The stream is a "Soft Hammer" material containing organics or other non-metals (Attach. 3, Item 5).

I hereby certify that the information provided on this form is complete and accurate to the best of my knowledge and ability to determine.

February 23, 1989

TO ALL OF OUR VALUED CLIENTS:

As you know from having done business together over time, MSP has always attempted to accommodate the needs of all its' clients whenever paperwork errors occurred, particularly in the areas of manifest corrections and missing copies of manifests. MSP, and other facilities in Louisiana, have been informed by the LADEQ that, effective immediately, the correct and accepted procedures are as outlined below.

1. MSP may no longer accept any manifest with major changes on it.
Example: Three of the four line items either scratched through or removed by the generator.
2. MSP may no longer accept any manifest with any copies removed other than the gold copy which is retained by the generator at the time that the shipment leaves this facility.
3. MSP may accept minor changes, such as "container count" or "quantity", provided that any and all changes made are initialled by the person making the change.
4. Lastly, please remember to check the expiration date of all manifests to insure that no expired manifests are used, and also remember to include the Land Disposal Restriction Notification with each manifest.

MSP hopes that this notice will help everyone to avoid areas which can create problems under the new guidelines. Please call us if there are any questions.

Best Regards,

Richard A. Caire

ENVIRONMENTALLY SAFE

January 19, 1989

To: Transportation/Dispatch Department

From: MSP Sales Department

This is to advise you that, effective immediately, only manifests bearing the "91" expiration date and the new "burden box" are acceptable for loads shipped to MSP. The old manifests are no longer acceptable for receipt by MSP.

If you are not using the new manifest, please do not put your truck on the road. It will cause only delay for you and for MSP unless the new manifest is used for all shipments. MSP makes this request and advises you to use only manifests with the "91" expiration date and the "burden box" addition so as to avoid delays and confusion when shipping. Thanks for your cooperation. We want things to go as smoothly as possible for all of your shipments.

Sincerely,

Richard Caire
Sales Manager

SUBJECT: NOTICE OF APPROVAL

DATA SHEET NUMBER:
8901358

APPROVAL CODE:
HWM /DMC /8901358/ /

Marine Shale Processors, Inc. (MSP) has reviewed the attached Materials Characterization Data Sheets (MCDS) and approved these streams as listed above for recycling at our Amelia, LA. facility.

In accordance with LAC 33:V.1527.E. and 40 CFR 264.12, MSP certifies that it has the requisite authorizations and permits for the materials described on the attached MCDS, and hereby notifies you that it will accept such materials from you. All materials received for use as fuels will be burned only in boilers or furnaces identified in LAC 33:V.4141.F.2. and 4147.B.2. MSP has given the notifications required by LAC 33:V.105A., 4141.E.4., and 4147.E.1.

You are assured that any such materials delivered to the MSP facility will be handled, stored, and used or recycled in accordance with all applicable federal, state, and local environmental control laws and regulations.

Thank you for the opportunity to be of service to you. Please contact us if you have any questions concerning this letter or if we can be of further assistance.

Marine Shale Processors, Inc.

INTEROFFICE MEMO

TO: George B. Eldredge

SUBJECT: Hazardous Waste Management, Inc. and Dixie Metals

FROM: Jack W. Mount

DATE: 2/9/90

After a complete review of our files in the Sales Department and Accounting Department, the following information was found:

I. 1988 quotes expired due to non-recertification

1. Jan 28: (2) approvals
2. Feb 18: (2) approvals
3. Apr 25: (1) approval
4. May 9: (1) approval
5. Aug 9: (3) approvals
6. Aug 15: (2) approvals

None of these approvals were for Dixie Metals

II. The only invoices for HWM, Inc. were for May and August 1988. None of these invoices were for Dixie Metals.

III. Current quotes (1989)

1. March 7, 1989: Dixie Metals - Dallas, TX (1) approval
2. March 13, 1989: Fenton Co. - Coleman, TX (1) approval
3. Oct 26, 1989: Technicon Instruments-Carrollton, TX (8) approvals
4. Nov 1, 1989: Technicon Instruments-Carrollton, TX (7) approvals

There were (21) text pages in the computer for HWM, Inc. Only (2) made any reference to Dixie Metals. They are attached.

 HER.

012589 SARAH GOT KGB, ASKED IF MFESTS WERE SENT. NO, LIZZ NEVER HEARD BACK
 FROM HER. I'LL ASK MEL TO FEDEX SO.

022089 SARA FAXED SOME PROFILES. LOOK GOOD. SHE HAS ANOTHER ONE SHE STILL
 NEEDS TO FAX.

022089 REVIEWED THE DIXIE PROFILE. TAKE OFF THE IGNITABLE, AS FP = 220.
 030289 SARA IS SENDING PROFILES REG MAIL. LET HER KNOW WHEN I GET THEM.
 030889 MIX UP ON GENERATOR IDS. DICK WROTE THE SAME ON TWO OF THEM THINKING
 WE WOULDN'T CATCH IT. ONE IS APPLIED FOR. FOUND OUT WHICH IS RIGHT.

14. **SHIPMATOR'S CERTIFICATION:** I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked and labeled, and are in all respects in proper condition for transport by highway, including applicable international and national shoreward requirements. (49 CFR 175.30)

I am a large currier generator, I daily try to have a program in place to reduce the volume and toxicity of waste generated to the degree I have deemed to be economically practicable and I have obtained the practicable control of my waste stream. I have also been successful in obtaining the maximum amount of waste currently available to me which represents the present and future threat to human health and the environment; OR, if I am a small currier generator, I need submit a general statement about my waste generation and disposal to the best waste management technology feasible under EPA and RCRA guidelines.

INTEROFFICE MEMO

TO: George Eldredge

SUBJECT: Dixie Metals Manifest

FROM: Barbara Fontenot

DATE: February 19, 1990

On February 8, 1990 we received a call from Mr. Jeff Leed with Exide Corporation. He requested information about manifests which he said we had received from Dixie Metals Company during the months of January, February, and June in 1989. Gail Leonards conducted a search thru our manifest copies and she did not find any copies from Dixie Metals on file. She brought this to my attention and I instructed her to search thru the files again and to check the computer print out for the tonnage and quantity received report for those dates. She did and those reports show no receipt of material from that generator. I asked Gail to call Jeff Leed and have him fax over copies of the manifest he had on file.

On the morning of February 9, 1990 the copies came over the fax. After reviewing the copies, I noted several things that were wrong. On manifest number 906738 Barbara Fonseca does not work at the plant and is not authorized to sign manifest. On line item 11 a, column I, the Texas regulatory number would have been lined thru and indicated in section 19 why we did so. On manifest 810487 the signature in section 20 is not Gail Leonard's signature and also in column I the TWC910450 is Texas regulatory number and we always line thru those numbers and indicate in section 19 that we did so and why. On manifest 906744 the signature in section 20 is not Gail Leonards. Section 19 was completed on a typewriter and we never type discrepancies on the manifest. They are always hand written. It also states that the manifest was signed by an agent and we never authorize agents to sign for the generator. The Texas waste code was not lined thru in column I.

After noticing these things, I called to speak with Jeff Leed but I was told he would be out of the office until February 14th. I spoke with Carlos Sheirer of Leed and I explained to him that I could not read some of the areas on the fax copies and I requested he federal express to me some clean copies of the manifest. On February 13th I still had not received the copies so I called Carlos Sheirer and he told me I would have to speak with Jeff Leed on Wednesday because he could not locate the copies of the manifest in their office. Called Jeff Leed on 2-14-90 and he was in a meeting and I left a message for him to call me.

When I spoke with Carlos Sheirer I asked him why Exide Corporation out of Reading, Pa. was calling about Dixie Metals out of Dallas, Texas. Carlos told me that Dixie Metals is a subsidiary of Exide corporation.

Talked to Jeff Leed morning of Feb. 15th. He will call Dixie Metals and have them federal express good clean copies to me. Received same on February 16, 1990.

IF UNABLE TO DELIVER, RETURN TO GENERATOR
GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway, according to applicable international and national government regulations.
If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment. OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

MARINE SHALE PROCESSORS, INC.
LAND DISPOSAL RESTRICTIONS INFORMATION

00010

Customer Name: DIXIE METALS INC. Customer EPA ID Number: TXD 068999622
Customer Address: 3030 MCGOWAN MCDS Document Number: 908682
DALLAS TX 75216 HWM/DMC/18901358

Under manifest number(s): 908682/HWM/DMC/18901358, we are shipping to you, for use in the MSP recycling process, recyclable material(s) classified as EPA Hazardous Waste Number(s):

WASTE LUBE OIL D008R

A. The EPA land disposal restriction regulations (40 CFR 268)

☐ APPLY to these materials, under the following category or categories:

☐ Solvent/dioxin (See Attach. 1)

☐ California list, specifically (See Attach. 2):

☐ "First Third" list (See Attach. 3)

☒ DO NOT apply to this stream. (Skip following questions. Sign on bottom of page.)

B. The stream cannot be landfilled because (check one):

- ☐ 1. Incineration or recycling is the required technology to be used (See 40 CFR 268.42.), or
- ☐ 2. PCB's (ARE NOT acceptable and NOT approved for shipment to MSP), or
- ☐ 3. After November 8, 1988 ... wastes, except wastewaters, containing Halogenated Organic Compounds in total concentration of 1000 mg/kg or 1000 mg/l, or more., or
- ☐ 4. The stream is an F001-F005 solvent, or a "First Third" waste containing organics or other non-metals (Attach. 3, Item 1). The following constituents identified in Table CCW or Table CCWE (See Attach. 4) of 40 CFR 268, must be treated to at least the level specified below (use reverse side for additional constituents):

Constituent	Treatment Standard	Per Table	
		CCW	CCWE

- ☐ 5. The stream is a liquid that is primarily water and contains HOC's in total concentration greater than or equal to 1,000 mg/l and less than 10,000 mg/l HOC's, or
- ☐ 6. The stream is a "Soft Hammer" material containing organics or other non-metals (Attach. 3, Item 5).

I hereby certify that the information provided on this form is complete and accurate to the best of my knowledge and ability to determine.

ENVIRONMENTALLY SAFE

February 23, 1989

TO ALL OF OUR VALUED CLIENTS:

As you know from having done business together over time, MSP has always attempted to accommodate the needs of all its' clients whenever paperwork errors occurred, particularly in the areas of manifest corrections and missing copies of manifests. MSP, and other facilities in Louisiana, have been informed by the LADEQ that, effective immediately, the correct and accepted procedures are as outlined below.

1. MSP may no longer accept any manifest with major changes on it.
Example: Three of the four line items either scratched through or removed by the generator.
2. MSP may no longer accept any manifest with any copies removed other than the gold copy which is retained by the generator at the time that the shipment leaves this facility.
3. MSP may accept minor changes, such as "container count" or "quantity", provided that any and all changes made are initialled by the person making the change.
4. Lastly, please remember to check the expiration date of all manifests to insure that no expired manifests are used, and also remember to include the Land Disposal Restriction Notification with each manifest.

MSP hopes that this notice will help everyone to avoid areas which can create problems under the new guidelines. Please call us if there are any questions.

Best Regards,

Richard A. Caire

ENVIRONMENTALLY SAFE

January 19, 1989

To: Transportation/Dispatch Department

From: MSP Sales Department

This is to advise you that, effective immediately, only manifests bearing the "91" expiration date and the new "burden box" are acceptable for loads shipped to MSP. The old manifests are no longer acceptable for receipt by MSP.

If you are not using the new manifest, please do not put your truck on the road. It will cause only delay for you and for MSP unless the new manifest is used for all shipments. MSP makes this request and advises you to use only manifests with the "91" expiration date and the "burden box" addition so as to avoid delays and confusion when shipping. Thanks for your cooperation. We want things to go as smoothly as possible for all of your shipments.

Sincerely,

Richard Caire
Sales Manager

UNABLE TO DELIVER, RETURN TO GENERATOR

GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by the generator and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway, rail, water, or air. I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be feasible, and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and potential adverse effects on the environment. OMB/EPA is a small quantity generator. I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that has the lowest potential for adverse effects on the environment.

SUBJECT: NOTICE OF APPROVAL

DATA SHEET NUMBER:
8901358

APPROVAL CODE:
HWM /DMC /8901358/ /

Marine Shale Processors, Inc. (MSP) has reviewed the attached Materials Characterization Data Sheets (MCDS) and approved these streams as listed above for recycling at our Amelia, LA. facility.

In accordance with LAC 33:V.1527.E. and 40 CFR 264.12, MSP certifies that it has the requisite authorizations and permits for the materials described on the attached MCDS, and hereby notifies you that it will accept such materials from you. All materials received for use as fuels will be burned only in boilers or furnaces identified in LAC 33:V.4141.F.2. and 4147.B.2. MSP has given the notifications required by LAC 33:V.105A., 4141.E.4., and 4147.E.1.

You are assured that any such materials delivered to the MSP facility will be handled, stored, and used or recycled in accordance with all applicable federal, state, and local environmental control laws and regulations.

Thank you for the opportunity to be of service to you. Please contact us if you have any questions concerning this letter or if we can be of further assistance.

INTEROFFICE MEMO

TO: George B. Eldredge

SUBJECT: Hazardous Waste
Management, Inc.
and Dixie Metals

FROM: Jack W. Mount

DATE: 2/9/90

After a complete review of our files in the Sales Department and Accounting Department, the following information was found:

I. 1988 quotes expired due to non-recertification

1. Jan 28: (2) approvals
2. Feb 18: (2) approvals
3. Apr 25: (1) approval
4. May 9: (1) approval
5. Aug 9: (3) approvals
6. Aug 15: (2) approvals

None of these approvals were for Dixie Metals

II. The only invoices for HWM, Inc. were for May and August 1988. None of these invoices were for Dixie Metals.

III. Current quotes (1989)

1. March 7, 1989: Dixie Metals - Dallas, TX
(1) approval
2. March 13, 1989: Fenton Co. - Coleman, TX
(1) approval
3. Oct 26, 1989: Technicon Instruments-Carrollton, TX
(8) approvals
4. Nov 1, 1989: Technicon Instruments-Carrollton, TX
(7) approvals

There were (21) text pages in the computer for HWM, Inc. Only (2) made any reference to Dixie Metals. They are attached.

110888 TAMMIE, STEVE CALLED IN TO SCHEDULE A 2ND LOAD USING MSP AS TRANSPD. I GAVE HIM THE TOLL FREE NO. TO CALL TO SCHEDULE HIS LOAD. TAMMIE, HE HAS NOT BEEN CONTACTED VERBALLY SINCE AUGUST. HE IS A PRETTY BIG VOLUME GENERATOR. YOU NEED TO CALL ON THESE PEOPLE TO INTRODUCE YOURSELF AS THEIR NEW TECHREP AND SEE IF THEY GENERATE ANYTHING NEW WE MAY BE ABLE TO HANDLE. P.S. I'M NOT LECTURING YOU. THANKS MJJ.

030989 BUSINESS CALL RE NEXT SHIPMENT: STEVE INFORMED ME MSP HAS CLEANED THEM OUT. ALL OF THEIR QUOTATIONS WERE FOR ONE TIME GENERATION. EXIDE DOES NOT HAVE ANY WASTE STREAMS THAT ARE GENERATED ON A CONSISTENT BASIS. STEVE TOLD ME HOWEVER THAT THEY WILL BE UNDERGOING SOME EXPANSION DURING THE SPRING & SUMMER AND WILL HAVE A NEED FOR OUR SERVICES THEN. WILL FOLLOW UP. HE IS AWARE OF OUR PRICE INCREASE.

February 23, 1989

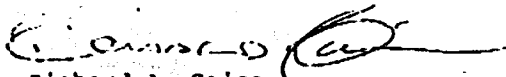

TO ALL OF OUR VALUED CLIENTS:

As you know from having done business together over time, MSP has always attempted to accommodate the needs of all its' clients whenever paperwork errors occurred, particularly in the areas of manifest corrections and missing copies of manifests. MSP, and other facilities in Louisiana, have been informed by the LADEQ that, effective immediately, the correct and accepted procedures are as outlined below.

1. MSP may no longer accept any manifest with major changes on it.
Example: Three of the four line items either scratched through or removed by the generator.
2. MSP may no longer accept any manifest with any copies removed other than the gold copy which is retained by the generator at the time that the shipment leaves this facility.
3. MSP may accept minor changes, such as "container count" or "quantity", provided that any and all changes made are initialed by the person making the change.
4. Lastly, please remember to check the expiration date of all manifests to insure that no expired manifests are used, and also remember to include the Land Disposal Restriction Notification with each manifest.

MSP hopes that this notice will help everyone to avoid areas which can create problems under the new guidelines. Please call us if there are any questions.

Best Regards,

Richard A. Calre
Sales Manager
