[1]A complaint is information that comes to the attention of EOIR suggesting that an adjudicator may have engaged in judicial misconduct. The vast majority of "complaints" are concluded as meritless, typically because they are frivolous, unsubstantiated, or relate to the merits of an adjudicator's decision. Beginning in January 2025, EOIR no longer encourages or tolerates weaponizing the complaint process to threaten, intimidate, or harass adjudicators based on the merits of their decisions. Neither general disagreement with an adjudicator's judicial philosophy nor specific disagreement with an adjudicator's decision in a particular case constitutes a valid complaint.

[1] Asylum decisions on affirmative and defensive applications issues in completed removal, deportation, exclusion, and asylum only proceedings or in proceedings that have been administratively closed. Initial case completions only.

[2] EOIR determined that creation of a "not adjudicated" code for applications would result in a more accurate description and render the "other" code unnecessary. In May 2019, EOIR deactivated the "other" code for applications.

[3] Administrative closure decisions for cases that have not been placed back on the docket. Redocketing occurs following an immigration judge's grant of a party's motion to recalendar.

[1] Asylum decisions on affirmative and defensive applications issues in completed removal, deportation, exclusion, and asylum only proceedings or in proceedings that have been administratively closed. Initial case completions only.

[2] EOIR determined that creation of a "not adjudicated" code for applications would result in a more accurate description and render the "other" code unnecessary. In May 2019, EOIR deactivated the "other" code for applications.

[3] Administrative closure decisions for cases that have not been placed back on the docket. Redocketing occurs following an immigration judge's grant of a party's motion to recalendar.

[1] Dedicated Docket cases are marked with a Dedicated Docket case identifier and are at an established Dedicated Docket hearing location. Removal, deportation, exclusion, asylum-only, and withholding-only cases. In April 2022, DHS determined that Cubans, Venezuelans, and Nicaraguans did not meet the requirements for placement on the dedicated docket. Most Cubans, Venezuelans, and Nicaraguans were subsequently placed on a non-detained docket.

[2] Cases in this category include those identified as Dedicated Docket cases by DHS and are currently being heard at a Dedicated Docket hearing location. Case types include removal, deportation, exclusion, asylum-only, and withholding-only.

[3] The categories of "Pending" and "Completions" do not include all possible actions. Certain seldom used action types are not included here, thus the sum of pending cases and initial case completions does not equal the total receipts.

[1] Asylum rates for Fiscal Year 2024. Data generated on July 19, 2024. Administrative closures are not reported due to the low volumes precluding reporting for most countries. Where it is necessary to protect privacy interests, EOIR does not report numbers lower than four (denoted by an asterisk(*)).

[2] Asylum decisions on affirmative and defensive applications in completed removal, deportation, exclusion, and asylum-only proceedings. Initial case completions only.

[3] EOIR determined that creation of a "not adjudicated" code for applications would result in a more accurate description and render the "other" code unnecessary. In May 2019, EOIR deactivated the "other" code for applications.

[4] Former Countries includes East Germany and the Soviet Union.

[1] Dedicated Docket cases are marked with a Dedicated Docket case identifier and are at an established Dedicated Docket hearing location. Removal, deportation, exclusion, asylum-only, and withholding-only cases. In April 2022, DHS determined that Cubans, Venezuelans, and Nicaraguans did not meet the requirements for placement on the dedicated docket. Most Cubans, Venezuelans, and Nicaraguans were subsequently placed on a non-detained docket.

[2] Cases in this category include those identified as Dedicated Docket cases by DHS and are currently being heard at a Dedicated Docket hearing location. Case types include removal, deportation, exclusion, asylum-only, and withholding-only.

[3] The categories of "Pending" and "Completions" do not include all possible actions. Certain seldom used action types are not included here, thus the sum of pending cases and initial case completions does not equal the total receipts.

[1] Asylum decisions subsequent to Department of Homeland Security referrals following a credible fear interview in completed removal, deportation, exclusion proceedings (initial case completions only) or in proceedings that have been administratively closed.

[2] EOIR determined that creation of a "not adjudicated" code for applications would result in a more accurate description and render the "other" code unnecessary. In May 2019, EOIR deactivated the "other" code for applications.

[3] Administrative closure decisions that have not been placed back on the docket (redocketing occurs after either party files a motion to recalendar).

Data Generated: April 19, 2024

[1] Asylum decisions on affirmative and defensive applications issues in completed removal, deportation, exclusion, and asylum only proceedings or in proceedings that have been administratively closed. Initial case completions only.

[2] EOIR determined that creation of a "not adjudicated" code for applications would result in a more accurate description and render the "other" code unnecessary. In May 2019, EOIR deactivated the "other" code for applications.

[3] Administrative closure decisions for cases that have not been placed back on the docket. Redocketing occurs following an immigration judge's grant of a party's motion to recalendar.

[1] Dedicated Docket cases are marked with a Dedicated Docket case identifier and are at an established Dedicated Docket hearing location. Removal, deportation, exclusion, asylum-only, and withholding-only cases. In April 2022, DHS determined that Cubans, Venezuelans, and Nicaraguans did not meet the requirements for placement on the dedicated docket. Most Cubans, Venezuelans, and Nicaraguans were subsequently placed on a non-detained docket.

[2] Cases in this category include those identified as Dedicated Docket cases by DHS and are currently being heard at a Dedicated Docket hearing location. Case types include removal, deportation, exclusion, asylum-only, and withholding-only.

[3] The categories of "Pending" and "Completions" do not include all possible actions. Certain seldom used action types are not included here, thus the sum of pending cases and initial case completions does not equal the total receipts.

Data Generated: January 18, 2024

[1] Asylum decisions subsequent to Department of Homeland Security referrals following a credible fear interview in completed removal, deportation, exclusion proceedings (initial case completions only) or in proceedings that have been administratively closed.

[2] EOIR determined that creation of a "not adjudicated" code for applications would result in a more accurate description and render the "other" code unnecessary. In May 2019, EOIR deactivated the "other" code for applications.

[3] Administrative closure decisions that have not been placed back on the docket (redocketing occurs after either party files a motion to recalendar).

[1] Dedicated Docket cases are marked with a Dedicated Docket case identifier and are at an established Dedicated Docket hearing location. Removal, deportation, exclusion, asylum-only, and withholding-only cases. In April 2022, DHS determined that Cubans, Venezuelans, and Nicaraguans did not meet the requirements for placement on the dedicated docket. Most Cubans, Venezuelans, and Nicaraguans were subsequently placed on a non-detained docket.

[2] Cases in this category include those identified as Dedicated Docket cases by DHS and are currently being heard at a Dedicated Docket hearing location. Case types include removal, deportation, exclusion, asylum-only, and withholding-only.

[3] The categories of "Pending" and "Completions" do not include all possible actions. Certain seldom used action types are not included here, thus the sum of pending cases and initial case completions does not equal the total receipts.

[1] Asylum decisions subsequent to a credible fear book-in at Department of Homeland Security in completed removal, deportation, exclusion proceedings (initial case completions only) or in proceedings that have been administratively closed.

[2] Asylum others have a decision of abandonment, not adjudicated, other or withdrawn. EOIR determined that creation of a "not adjudicated" code for applications would result in a more accurate description and render the "other" code unnecessary. In May 2019, EOIR deactivated the "other" code for applications.

[3] Administrative Closure decisions that have not been placed back on the docket (redocketing occurs following an immigration judge's grant of a party's motion to recalendar).

[1] Asylum rates for Fiscal Year 2023. Data generated on October 12, 2023. Administrative closures are not reported due to the low volumes precluding reporting for most countries.
[2] Asylum decisions on affirmative and defensive applications in completed removal, deportation, exclusion, and asylum-only proceedings. Initial case completions only.
[3] Asylum others have a decision of abandonment, not adjudicated, other or withdrawn. EOIR determined that creation of a "not adjudicated" code for applications would result in a more accurate description and render the "other" code unnecessary. In May 2019, EOIR deactivated the "other" code for applications.
[4] Former Countries includes East Germany and the Soviet Union.

The COVID-19 pandemic resulted in fewer non-detained hearings overall and, therefore, fewer occasions in which *in absentia* orders of removal may have occurred. Additionally, the Department of Homeland Security's policy modifications led to an increase in terminations and dismissals, which impacted the number of *in absentia* orders of removal.

[1] Representation in removal, deportation, exclusion, and asylum-only proceedings. Representation status is recorded in EOIR's case management system when a representative of record is noted for a proceeding during an immigration case. A noncitizen who has representation but whose representative has not yet filed a Form EOIR-28 with EOIR is counted as unrepresented.

[2] Includes cases in which a charging document has been filed but a hearing has not yet occurred.

[3] Initial and Subsequent Case Completions.

[4] Asylum others have a decision of abandonment, not adjudicated, other or withdrawn. EOIR determined that creation of a "not adjudicated" code for applications would result in a more accurate description and render the "other" code unnecessary. In May 2019, EOIR deactivated the "other" code for applications.

[1] Dedicated Docket cases are marked with a Dedicated Docket case identifier and are at an established Dedicated Docket hearing location. Removal, deportation, exclusion, asylum-only, and withholding-only cases. In April 2022, DHS determined that Cubans, Venezuelans, and Nicaraguans did not meet the requirements for placement on the dedicated docket. Most Cubans, Venezuelans, and Nicaraguans were subsequently placed on a non-detained docket.

[2] Cases in this category include those identified as Dedicated Docket cases by DHS and are currently being heard at a Dedicated Docket hearing location. Case types include removal, deportation, exclusion, asylum-only, and withholding-only.

[3] The categories of "Pending" and "Completions" do not include all possible actions. Certain seldom used action types are not included here, thus the sum of pending cases and initial case completions does not equal the total receipts.

The COVID-19 pandemic resulted in fewer non-detained hearings overall and, therefore, fewer occasions in which *in absentia* orders of removal may have occurred. Additionally, the Department of Homeland Security's policy modifications led to an increase in terminations and dismissals, which impacted the number of *in absentia* orders of removal.

[1] Dedicated Docket cases are marked with a Dedicated Docket case identifier and are at an established Dedicated Docket hearing location. Removal, deportation, exclusion, asylum-only, and withholding-only cases. In April 2022, DHS determined that Cubans, Venezuelans, and Nicaraguans did not meet the requirements for placement on the dedicated docket. Most Cubans, Venezuelans, and Nicaraguans were subsequently placed on a non-detained docket.

[2] Cases in this category include those identified as Dedicated Docket cases by DHS and are currently being heard at a Dedicated Docket hearing location. Case types include removal, deportation, exclusion, asylum-only, and withholding-only.

[3] The categories of "Pending" and "Completions" do not include all possible actions. Certain seldom used action types are not included here, thus the sum of pending cases and initial case completions does not equal the total receipts.

[1] Dedicated Docket cases are marked with a Dedicated Docket case identifier and are at an established Dedicated Docket hearing location. Removal, deportation, exclusion, asylum-only, and withholding-only cases. In April 2022, DHS determined that Cubans, Venezuelans, and Nicaraguans did not meet the requirements for placement on the dedicated docket. Most Cubans, Venezuelans, and Nicaraguans were subsequently placed on a non-detained docket.

[2] Cases in this category include those identified as Dedicated Docket cases by DHS and are currently being heard at a Dedicated Docket hearing location. Case types include removal, deportation, exclusion, asylum-only, and withholding-only.

[3] The categories of "Pending" and "Completions" do not include all possible actions. Certain seldom used action types are not included here, thus the sum of pending cases and initial case completions does not equal the total receipts.

The COVID-19 pandemic resulted in fewer non-detained hearings overall and, therefore, fewer occasions in which *in absentia* orders of removal may have occurred. Additionally, the Department of Homeland Security's policy modifications led to an increase in terminations and dismissals, which impacted the number of *in absentia* orders of removal.

[1] *In Absentia* removal orders issued in removal, deportation, and exclusion cases, excluding detained non-MPP cases.

[2] Initial Case Completions

The COVID-19 pandemic resulted in fewer non-detained hearings overall and, therefore, fewer occasions in which *in absentia* orders of removal may have occurred. Additionally, the Department of Homeland Security's policy modifications led to an increase in terminations and dismissals, which impacted the number of *in absentia* orders of removal.

[1] Dedicated Docket cases are marked with a Dedicated Docket case identifier and are at an established Dedicated Docket hearing location. Removal, deportation, exclusion, asylum-only, and withholding-only cases. In April 2022, DHS determined that Cubans, Venezuelans, and Nicaraguans did not meet the requirements for placement on the dedicated docket. Most Cubans, Venezuelans, and Nicaraguans were subsequently placed on a non-detained docket.

[2] Cases in this category include those identified as Dedicated Docket cases by DHS and are currently being heard at a Dedicated Docket hearing location. Case types include removal, deportation, exclusion, asylum-only, and withholding-only.

[3] The categories of "Pending" and "Completions" do not include all possible actions. Certain seldom used action types are not included here, thus the sum of pending cases and initial case completions does not equal the total receipts.

The COVID-19 pandemic resulted in fewer non-detained hearings overall and, therefore, fewer occasions in which *in absentia* orders of removal may have occurred. Additionally, the Department of Homeland Security's policy modifications led to an increase in terminations and dismissals, which impacted the number of *in absentia* orders of removal.

[1] Dedicated Docket cases are marked with a Dedicated Docket case identifier and are at an established Dedicated Docket hearing location. Removal, deportation, exclusion, asylum-only, and withholding-only cases. In April 2022, DHS determined that Cubans, Venezuelans, and Nicaraguans did not meet the requirements for placement on the dedicated docket. Most Cubans, Venezuelans, and Nicaraguans were subsequently placed on a non-detained docket.

[2] Cases in this category include those identified as Dedicated Docket cases by DHS and are currently being heard at a Dedicated Docket hearing location. Case types include removal, deportation, exclusion, asylum-only, and withholding-only.

[3] The categories of "Pending" and "Completions" do not include all possible actions. Certain seldom used action types are not included here, thus the sum of pending cases and initial case completions does not equal the total receipts.

[1] Dedicated Docket cases are marked with a Dedicated Docket case identifier and are at an established Dedicated Docket hearing location. Removal, deportation, exclusion, asylum-only, and withholding-only cases.
[2] Cases in this category include those identified as Dedicated Docket cases by DHS and are currently being heard at a Dedicated Docket hearing location. Case types include removal, deportation, exclusion, asylum-only, and withholding-only.
[3] The categories of "Pending" and "Completions" do not include all possible actions. Certain seldom used action types are not included here, thus the sum of pending cases and initial case completions does not equal the total receipts.

The COVID-19 pandemic resulted in fewer non-detained hearings overall and, therefore, fewer occasions in which *in absentia* orders of removal may have occurred. Additionally, the Department of Homeland Security's policy modifications led to an increase in terminations and dismissals, which impacted the number of *in absentia* orders of removal.

[1] *In Absentia* removal orders issued in removal, deportation, and exclusion cases, excluding detained non-MPP cases.

[2] Initial Case Completions

The COVID-19 pandemic resulted in fewer non-detained hearings overall and, therefore, fewer occasions in which *in absentia* orders of removal may have occurred. Additionally, the Department of Homeland Security's policy modifications led to an increase in terminations and dismissals, which impacted the number of *in absentia* orders of removal.

[1] Dedicated Docket cases are marked with a Dedicated Docket case identifier and are at an established Dedicated Docket hearing location. Removal, deportation, exclusion, asylum-only, and withholding-only cases.
[2] Cases in this category include those identified as Dedicated Docket cases by DHS and are currently being heard at a Dedicated Docket hearing location. Case types include removal, deportation, exclusion, asylum-only, and withholding-only.
[3] The categories of "Pending" and "Completions" do not include all possible actions. Certain seldom used action types are not included here, thus the sum of pending cases and initial case completions does not equal the total receipts.

[1] Representation in removal, deportation, exclusion, and asylum-only proceedings. Representation status is recorded in EOIR's case management system when a representative of record is noted for a proceeding during an alien's immigration case. An alien who has representation but whose representative has not yet filed a Form EOIR-28 with EOIR is counted as unrepresented.

[2] Includes cases in which a charging document has been filed but a hearing has not yet occurred.

[3] Initial and Subsequent Case Completions.

[1] Dedicated Docket cases are marked with a Dedicated Docket case identifier and are at an established Dedicated Docket hearing location. removal, deportation, exclusion, asylum-only, and withholding-only cases.

[2] Cases in this category include those identified as Dedicated Docket cases by DHS and are currently being heard at a Dedicated Docket hearing location. Case types include removal, deportation, exclusion, asylum-only, and withholding-only.

[3] The categories of "Pending" and "Completions" do not include all possible actions. Certain seldom used action types are not included here, thus the sum of pending cases and initial case completions does not equal the total receipts.

[1] Representation in removal, deportation, exclusion, and asylum-only proceedings. Representation status is recorded in EOIR's case management system when a representative of record is noted for a proceeding during an alien's immigration case. An alien who has representation but whose representative has not yet filed a Form EOIR-28 with EOIR is counted as unrepresented.

[2] Includes cases in which a charging document has been filed but a hearing has not yet occurred.

[1] The term "family unit" is an apprehension classification used by the Department of Homeland Security (DHS), and EOIR does not generally differentiate "family unit" cases from other cases unless they are identified as such by DHS. Accordingly, the "family unit" cases represented in the chart do not include all cases of "family units" currently in immigration proceedings nationwide.

[1] Representation in removal, deportation, exclusion, and asylum-only proceedings. Representation status is recorded in EOIR's case management system when a representative of record is noted for a proceeding during an alien's immigration case. An alien who has representation but whose representative has not yet filed a Form EOIR-28 with EOIR is counted as unrepresented.

[2] Includes cases in which a charging document has been filed but a hearing has not yet occurred.

[3] Initial and Subsequent Case Completions.

[1] Representation in removal, deportation, exclusion, and asylum-only proceedings. Representation status is recorded in EOIR's case management system when a representative of record is noted for a proceeding during an alien's immigration case. An alien who has representation but whose representative has not yet filed a Form EOIR-28 with EOIR is counted as unrepresented.

[2] Includes cases in which a charging document has been filed but a hearing has not yet occurred.

[1] The term "family unit" is an apprehension classification used by the Department of Homeland Security (DHS), and EOIR does not generally differentiate "family unit" cases from other cases unless they are identified as such by DHS. Accordingly, the "family unit" cases represented in the chart do not include all cases of "family units" currently in immigration proceedings nationwide.

[1] The term "family unit" is an apprehension classification used by the Department of Homeland Security (DHS), and EOIR does not generally differentiate "family unit" cases from other cases unless they are identified as such by DHS. Accordingly, the "family unit" cases represented in the chart do not include all cases of "family units" currently in immigration proceedings nationwide.

[1] The term "family unit" is an apprehension classification used by the Department of Homeland Security (DHS), and EOIR does not generally differentiate "family unit" cases from other cases unless they are identified as such by DHS. Accordingly, the "family unit" cases represented in the chart do not include all cases of "family units" currently in immigration proceedings nationwide.

[1] The term "family unit" is an apprehension classification used by the Department of Homeland Security (DHS), and EOIR does not generally differentiate "family unit" cases from other cases unless they are identified as such by DHS. Accordingly, the "family unit" cases represented in the chart do not include all cases of "family units" currently in immigration proceedings nationwide.

[1] The term "family unit" is an apprehension classification used by the Department of Homeland Security (DHS), and EOIR does not generally differentiate "family unit" cases from other cases unless they are identified as such by DHS. Accordingly, the "family unit" cases represented in the chart do not include all cases of "family units" currently in immigration proceedings nationwide.
