To be clear, however, DFF still requests that complete email chains be produced, displaying both sent and received messages. This means, for example, that both a specified official's response to an email and the initial received message are responsive to this request and should be produced. 2026-47467	06/18/2026	Social Justice Collaborative	This is a FOIA request for aggregate, de-identified data and policy records held by EOIR. Requester seeks records sufficient to evaluate EOIR's practices for rescheduling removal hearings and for generating and serving hearing notices. For records held in a structured database (CASE/ECAS), please produce in machine-readable format (CSV, TSV, or Excel) with a field dictionary—not PDF or scanned images. Please release reasonably segregable de-identified data rather than withholding in full; direct identifiers may be removed or hashed. Records sought: (1) Hearing scheduling/rescheduling data, one row per hearing or scheduling event, with: an anonymized case identifier (hashed or sequential, linkable across items); hearing court/location code; original hearing date; each rescheduled date and the sequence of changes; the adjournment/scheduling reason code for each change (with a code key); whether the change was court/agency-initiated or on party motion (if captured); and hearing type (master vs. individual). (2) Hearing-notice issuance data for each hearing in item (1): date any Notice of Hearing was generated; recorded method of service; whether a valid address of record existed and whether mail was returned undeliverable (presence/absence only, not the address); any flag or code indicating a notice was not generated, not served, returned, or suppressed; and, for rescheduled hearings specifically, whether a new notice reflecting the changed time or place was generated and served. (3) Policy and system documentation: OPPMs, Director's memoranda, standard operating procedures, and internal guidance governing the rescheduling of hearings and the generation and service of hearing notices, including any guidance tied to docket-management or surge-docket initiatives; record layouts and data dictionaries for the CASE/ECAS fields responsive to items (1)–(2); and any final guidance instructing court staff that hearing notices need not, or should not, be issued for certain rescheduled hearings. Rolling production is acceptable; please begin with the structured data in items (1)–(2). If any portion implicates a different DOJ component or DHS, please refer rather than deny. 2026-23923	05/19/2026	Star Tribune	This is a request for documents under the Freedom of Information Act, 5 U.S.C. § 552. I am requesting documents from the Minnesota Fort Snelling Immigration Court's "IJ Hearing Calendar," for all detention, amelioration of conditions, bond, and/or custody re-determination hearings ("Detention Hearings") held between December 1, 2025 and the date this request is filled. For each Detention Hearing, please provide the noncitizen name, the A# (or at least the last three digits), the hearing type, the previous activity ("prev adj code"), the two-digit code showing the person's nationality, any names identified as noncitizen representatives and the date of the hearing. All this information appears on the public dockets posted at the courthouse each morning, and, as a result, any claim of exemption from FOIA has been waived. Please provide the records in an electronic format. I would prefer if this can be provided as a .csv file, assuming these records are stored in some sort of database structure. I ask that my request receive expedited processing because I have a compelling need, working for an organization that is primarily engaged in disseminating information, and there is an urgent need to inform the public about immigration detention hearings happening in the Minnesota Immigration Court. 2026-25562	06/15/2026	N/A	Pursuant to the Freedom of Information Act, I hereby request the following records: Summary of oral decisions of Immigration Judge John P. Burns Dated 04/30/2023 – 02/13/2026. The term "Summary of Oral Decisions" refers to the official opinions issued by the immigration court in the form of concise summaries, intended for the convenience of the parties involved. These summaries aim to capture the essential points of oral decisions made during specific proceedings. It's important to note that these summaries are not meant to replace the original oral decisions but rather to serve as supplementary aids for better comprehension. Regarding the specific request for "oral decision of immigration judge John Burns" with the IJ code "JHB," I understand that due to an ongoing backlog, locating Summaries of Decisions that have not yet been electronically filed could be challenging at this time. For this reason, I am requesting the production of all eROPs (electronically stored Summaries of Decisions) for the sake of efficiency. Furthermore, I request that if one aspect of this request will take significantly longer than the other, please release the documents as they become accessible. We would appreciate your assistance in randomly selecting 75 eROPs. We hold a specific interest in the respondent's country of origin, namely China, Mexico and Ecuador. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.
